From A. H. G. Malet Esq. Executive
Engineer, Kistna Western Division to the
Supt. Engineer, 2nd Circle, dated
23 November 1891, No 482 S.

I have the honor to submit ^{for sanction}
an estimate amounting to Rs 5000 under
land & kilns, lime manufacture at
Tadheswaram. The existing debit under
land & kilns is Rs 124. This sum is
now being charged off against the
outturn at a rate of Rs 22 monthly,
and will, therefore, be worked out by
March next.

If the estimate now submitted is
sanctioned, I propose to charge it
off in six years or at the rate of about
Rs 833 per year or Rs 70 per month.
With the outturn of 4000 Candies a year,
the extra charge will come to about $13\frac{1}{3}$
annas per candy, or 8 piers per panna.
It is probable, however, that the saving
effected in the outturn by the more
economical arrangements now proposed
will at least equal this extra charge.
The rate allowed for Corrugated
iron roofing is obtained from a quotation

given by Messrs. Richardson &
Lundras of Bombay. The quotation
was a fraction over Rs 1 per
Sqr foot covered, & I have increased
this to Rs 1.3.0 to provide for Carriage
from Bombay & packing.

The details were worked out
& plans, Estimates & report prepared
by Mr. Smyth. The report gives
full information & explains the nature
of the work to be done.

The rates for concrete & rough stone
in mortar & for flat arch work
have been increased on account
of the rise in wages of labor, and
because special care will be required
in building part of the kiln. The
quantities & amounts of these items
are small.

I enclose

1 sheet of drawings of kiln & coal
shed.

1 Survey of the land ground as
it is.

1 Survey of do - as proposed
to be altered.
