2. Item 7. The Executive Engineer reports
that on further consideration and

requiring, he does not consider it advisable
to commence the collection of materials
for which the allotment was sanctioned
in G.O. No. 3354 of 9th December 1890,
until a well considered estimate
can be framed to suit the revised
design referred to in para 2 of G.O.
No. 2914 of 4th Nov. 1890. This revised
design has not as yet been received.
The locality where the Salug office
is to be built is situated in and
"out of the way" place in the
interior of Udayarpatayam
Talug, 54 miles from Tuticorin
and 20 miles from Kumbakonam
which are the nearest Railway
stations. All labor & materials
(except bricks) will have to come
from Tuticorin or Kumbakonam.
Bricks may be made at 12 miles
distance from the site on the right
bank of the Coleroon, but they
will have to be carted thence

to the side, during floods the stream
cuts off all traffic, and in dry
weather carts have a bad time
of it in crossing the sandy bed
of the river - Under the circumstances
it is not considered ad-
visable to carry out this work
by departmental agency, as it
would necessitate a large in-
crease to the Establishment,
and consequently the allotment
is surrendered -

Item 2. of the grants of Rs 1880. sanc-
tioned in G.O. No. 35 of 96 January 1901,
for constructing a second class
pass station house at Manu-
parai, it is reported that only
Rs 500 could be spent during
the current official year, the work
having only just been given
out on contract. The balance is
therefore surrendered -

Items 3 & 4. These works have nearly been
completed - The amounts surrendered
are savings on the items contin-
gencies and to an error in the
measurement of roofing in the
estimates.

433/3

Item 5. Grant in excess of requirements,
hence a portion is surrendered -

Item 6. The work having been abandoned
and the plant supplied for the
same ordered to be transferred
in G.O. No. 32417
4.12.90
to Bangalore, the balance of the grant
is surrendered -

Item 7. An estimate of Rs 470 for
repairing the ^{old} Collector's bungalow to
suit it for the Post office has been
received and the work ordered
to be put in hand in anticipation
of sanction to the estimate and
allotment of funds - Hence the
necessity for an allotment.

Item 8. An estimate of Rs 410 for
repairing the above building to suit

it for the Telegraph office has been
received & the work ordered to be
put on hand simultaneously
with the repairs referred to in
item 7 - of this sum, Rs 200
have been transferred from
Lumivelly division & the balance
is required to meet the amount
of the estimate.

Item 7 & 8 are of an urgent nature -
the collector's office having been re-
moved to the Artillery Barracks,
the Post & Telegraph offices are to
be removed to the vacated building;
but this cannot be done until
some urgent repairs required to this
building are carried out. These
repairs have therefore been
ordered to be put on hand at
once, and the amounts now
applied for are absolutely necessary.

Item 9 - the existing grant having
almost been spent, an additional
allotment is required -
