REFERENCE TO MADRAS P.W.D. CODE,
EDITION OF 1886.
PARAS. 1966-69.

P. W. D. FORM,
No. M 112.

OFFICE OF EXAMINER OF P. W. ACCOUNTS,
MADRAS.

CIRCLE *High*

IRREGULARITIES

IN RESPECT OF *Estimates*

Provincial Statement of Objectionable
Items in the Accounts of Executive
Engineers for the period ending
30 November 189*0*
requiring orders of Government.

The object of this return is to place before govern-
ment an analysis of financial irregularities of certain
classes with a view to their being remedied. The classes
of irregularities and the periods for reporting them
to government are as follow :-

1. Irregularities as to estimate ("want of estimate," "excess
over estimate," "sanctions for major irrigation
works (not charged against revenue) requiring
renewal or revision under code para. 1509," "want
of confirmation to provisional sanction," "want of
revised estimate") on the 1st of February, May,
August and November for the periods ending 30th
November, 28th February, 31st May and 31st
August, respectively.

2. Irregularities in respect of appropriation ("want of
appropriation," and "excess over appropriation")
on the 1st of June, September, December, February
and March, for the periods ending 31st March,
30th June, 30th September, 30th November and
31st December, respectively.

3. The classification of items in the statement should
be confined to the separation of new items from old and
repeated items, the latter being further sub-divided
according to the month of origin. The new items
should be entered first and then the older items in
order, the oldest being entered last. The months to
which the several items relate should be entered in
column 2 above the particulars of the items concerned.

4. The provincial statement will be posted from
divisional statements, but its submission to government
should not be delayed owing to non-receipt of divisional
objectionable item statements, and the fact of any such
statement being received in time for inclusion in the provin-
cial statement should be reported to government against
the division concerned.

5. Items of irregular expenditure which are left
unrecorded by executive engineers in their divisional
statements should be distinctly noted as such in the
statement to government.

6. In the case of large projects such important features
as the following should be stated with precision :-

- | | |
|--|--|
| 1. Lump sum estimate. | 1. Submitted to chief engineer. |
| 2. Abstract detail estimate by sub-heads, and so on. | 2. Submitted to superintending engineer. |
| | 3. Not yet submitted. |

7. A large work which is proceeded with on merely
lump sum sanction is still objectionable till an abstract
detail estimate by sub-heads is submitted and
sanctioned for it by competent authority.

8. Special mention should be made of works being
sanctioned out in portions by authorities, beyond whose
powers of sanction it would be to sanction the expend-
ture as a whole.

9. An important point to notice is the duration of a
particular irregularity.

10. Voluminous masses of detail when their practical
importance could be given in a few lines should always
be avoided as a rule. If, for instance, the state of
sanction in one month, does not materially
vary from that of a preceding month, it will answer
practical purposes to say so, instead of sending
a full report.

11. This statement is not to take the place of special
statements, then and there, of works on which serious
expenditure is being largely incurred, either
on estimate, or appropriation.
