6TH NOVEMBER 1890, No. 2857 L., LOCAL AND MUNICIPAL.

655
1
GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated 13th September 1890, No. 2787.

I have the honor to suggest that inquiries may be made from all Superintending Engineers in the Presidency, as also from the Local Fund Engineers, whether there is any probability of their being able to utilise any of the four sets of centerings of the Ponniar Bridge which are now available for transfer, sale, &c.

2. They are well made, in good order, and have been successfully used in building the sixteen segmental arches of the above bridge, spans of which are 60 feet and rise $13\frac{1}{2}$ feet.

3. The quantity of teakwood is about 4,100 cubic feet, and Vengai is 2,210 cubic feet. Except the lagging and a few struts which are of Vengai, the centerings are of teak.

4. The Executive Engineer, Cuddalore Bridge works, can give further detailed information and plans to any Executive Engineer requiring the same.

No. 4353-C.

MEMORANDUM.

Copy forwarded to the Local and Municipal Department, for favor of inquiry whether the centerings can be utilised by any District Board.

MADRAS,
27th October 1890.

(Signed) J. PENNYCUICK, Col., R.E.,
Secretary to Government, P.W.D.

To the Local and Municipal Department.

ORDER—dated 6th November 1890, No. 2857 L., Local and Municipal.

Referred to the Presidents of all District Boards for early report.

(True Extract.)

Headsrick
Chief Secretary.

To the Presidents of all District Boards.
