GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Military Works.
Account.

READ—the following paper :—

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Secretary to Government, Public Works Department (through Military Department), dated Ootacamund, 3rd March 1891, No. 432 M.W. (Accounts—Budget estimate).

I am desired to report, for your information, that, with the approval of Government and in view to the procedure being brought into conformity with that obtaining at stations under the control of the Military Works Department, the Commander-in-Chief has issued instructions that standing barrack committees, which assemble annually to investigate the requirements of corps and departments in regard to original military works, in accordance with the recommendations contained in whose reports the lists of works submitted year by year to Government, for inclusion in the Imperial Military Works budget estimates, are framed, should, in future, be required to report on only such works as are estimated to cost upwards of Rs. 2,500 each.

2. His Excellency feels sure that Government will agree with him as to necessity for the adoption of a similar procedure both at Military Works and Public Works stations and hopes that Government will approve of his action in having issued instructions* accordingly. Lists of

* Copy of circular addressed to General Officers Commanding districts (enclosed).

minor works for execution during the ensuing financial year, demands for which, it may here be remarked, cannot

conveniently be foreseen a year in advance with any degree of certainty, will not consequently be submitted with the programme of major works to be included in the Imperial budget estimate of military works for 1892-93 and subsequent years.

ENCLOSURES.

CIRCULAR.

No. 430 M.W.

The following instructions are issued for the information and guidance of all concerned in connection with the preparation and submission of the schedules of military works requirements for inclusion in the Imperial Military Works budget estimate of the financial year 1892-93 and subsequent years :—

(1) At all stations in this command, including those under the control of the Military Works Department, as well as those in charge of the Public Works Department, the standing barrack committee will, as heretofore, investigate the requirements of every corps, detachment or Military department (except as noted below in para. 8) so far as original works are concerned. On receipt at district head-quarters of the committee's lists, the works will be tabulated in the order of their importance as urgent or desirable, but without reference to stations or corps, &c., thus the first work in the list will be the most urgent work in the whole district, the second in the list the next most urgent and so on. Works to be undertaken by the Military Works Department should be kept quite distinct from those to be carried out by the Public Works Department and should be shown in separate lists.

(2) The major works lists tabulated, as above directed, should be forwarded by General Officers* Commanding after their remarks have

* The schedules of the Burma district should contain the remarks both of the General Officer Commanding the sub-district concerned and of the General Officer Commanding Burma district.

been duly recorded thereon, stating the necessity for each work and giving their opinions on it, so as to reach this office by the 15th May 1891 at latest, and it is requested that every

endeavour may be made to ensure the punctual submission of these lists to Army head-quarters.

(3) In accordance with the procedure obtaining in Bengal, the standing barrack committee will only report on such works estimated to cost upwards of Rs. 2,500 each. Lists of minor works requiring execution at Military Works and Public Works stations should not therefore be submitted in future either to this office or to that of the Chief Engineer, Military Works.

(4) Items that have been entered in former lists, for the execution of which funds have not been allotted, will be continued and care should be taken not to exclude them without good reason; but when General Officers Commanding are satisfied that the retention of such on the lists is really unnecessary they will not be entered. In such cases the forwarding letter should state the circumstances under which any particular work included in previous lists has been omitted.

(5) Care should be taken that all estimates for major works submitted or requirements considered necessary since the submission of the budget lists for 1891-92 are included in the lists due for 1892-93 and General Officers Commanding should satisfy themselves that the lists are complete in every particular before they are forwarded to head-quarters.

(6) The schedules submitted to this office will not ordinarily include the requirements for repairs, renewals and restorations (such as re-roofing buildings with more permanent material, &c.), which, though really in the nature of repairs, are technically classed as ordinary works. Works of this kind cannot conveniently be reported on by standing barrack committees, as the necessity or otherwise for extensive repairs and renewals can only be decided by those who are professionally responsible for the efficient maintenance of the buildings.

(7) All lists required under the above instructions to be submitted to this office should be forwarded in duplicate and should be prepared in foolscap, not demi-sized paper, in book form, the columns being on both pages and the writing down the page instead of across it. A specimen form is attached, but, as stated above, the returns of the Burma district should contain an additional column for the remarks of the General Officer Commanding Burma district, as well as for those of the General Officer Commanding the sub-district concerned.

(8) As all ordnance works are provided for out of funds placed at the disposal of the Director-General of Ordnance in India, the requirements of the Ordnance Department should not be included in the schedules submitted to this office by General Officers Commanding districts. The requirements of other Military departments should, however, be included in district schedules.

(9) The above instructions apply to all military station situated in the Burma, Secunderabad and Belgaum districts equally with those situated within the limits of the Madras Presidency proper.

(By Order.)

COTACANUND,
3rd March 1891.

The following instructions are issued for the information and guidance of all concerned, in connection with the preparation and submission of the Schedules of Military Works requirements for inclusion in the Imperial Military Works Budget Estimate of the financial year 1892/3 and subsequent years:—

(1) All stations in this Command, including those under the control of the Military Works Department, as well as those in charge of the Public Works Department, the Standing Barracks Committee will as therefore investigate the requirements of every Corps, Detachment, or Military Department (except as noted below in para (2)), so far as original works are concerned. On receipt at District Head Quarters of the Committee's List, the works will be tabulated in the order of their importance as urgent or desirable, but without reference to Stations or Corps &c., thus the first work in the List will be the most urgent work in the whole District, the second in the List the next most urgent and so on. Works to be undertaken by the Military Works Department should be kept quite distinct from those to be carried out by the Public Works Department and should be shown in separate Lists. The Major Works List tabulated as above directed, should be forwarded by General Officers commanding, after their remarks have been duly recorded thereon, stating the

the Schedules of the Burma District should contain the remarks both of the General Officer Comdg. the Dist. Dist. Concerned and of the G. O. C. Burma Dist. recorded thereon, stating the necessity for each work and giving their opinions on it, as

as to reach this office by the 15th May 1891 at latest, and it is requested that every endeavour may be made to ensure the punctual submission of these lists to Army Head Quarters.

(3) In accordance with the procedure obtaining in Bengal, the Standing Barrack Committee will only report on such works estimated to cost upwards of Rs. 2500—each. Lists of minor works requiring execution at Military Works and Public Works Stations, should not therefore be submitted in future, either to this office or to that of the Chief Engineer, Military Works.

(4) Items that have been entered in former lists for the execution of which funds have not been allotted, will be continued, and care should be taken not to delete them without good reasons, but where General Officers Commanding are satisfied that the retention of such on their lists is really unnecessary, they will not be entered. In such cases the forwarding letter should state the circumstances under which any particular work included in previous lists, has been omitted.

(5) Care should be taken that all estimates for major works submitted or requirements considered necessary since the submission of the Budget Lists for 1891-92, are included in the lists due for 1892/93 and General Officers Commanding should satisfy themselves that the lists are complete in every particular, before they are forwarded to Head Quarters.

(6) The Schedules submitted to this office will not ordinarily include the requirements for repairs, renewals and restorations (such as re-roofing buildings with more permanent material &c.) which though really in the nature of repairs, are technically classed as ordinary works. Works of this kind cannot conveniently be reported on by Standing Barrack Committees, as the necessity or otherwise for extensive repairs and renewals can only be decided by those who are professionally responsible for the efficient maintenance of the buildings.

(7) All lists required under the above instructions to be submitted to this office should be forwarded in duplicate, and should be prepared in foolscap not demi sized paper, in book form, the columns being on both pages, and the writing on the page instead of across it. A specimen form is attached, but as stated above the returns of the Burma District should contain an additional column for the remarks of the General Officer Commanding Burma District as well as for those of the General Officer Commanding the Sub-District concerned.

(8) As all Ordnance works are provided for out of funds placed at the disposal of the Director General of Ordnance in India, the requirements of the Ordnance Department should not be included in the Schedules submitted to this office by General Officers Commanding Districts. The requirements of other Military Departments should however be included in District Schedules.

(9) The above instructions apply to all military stations situated in the Burma, Beundrabadi and Belgaum Districts equally with those situated within the limits of the Madras Presidency proper.
