16TH MARCH 1891, No. 762 W., PUBLIC WORKS.

762/1

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

G.O., dated 8th November 1890, No. 721, Educational.

Read—the following letter from the Director of Public Instruction, dated Madras, 10th September 1890, No. 9294:—

I have the honor to submit, for sanction of Government, plans and estimates forwarded by the Superintending Engineer, V Circle, for the additional accommodation required for the Teachers' college. The revised estimate for Rs. 16,052 provides for extending the building on the northern side so as to give six new class rooms and for surrounding the whole building by a Mangalore tiled verandah. The necessity for the extension has been pointed out by Mr. Grigg in para. 11 of his letter recorded in G.O., No. 21, dated 14th January 1890, Educational. The estimate for Rs. 3,000 provides for a permanent shed for the primary department of the college.

2. As the need for the additional accommodation is pressing, I beg to request, with reference to this office letter No. 6859, dated 5th July last, that the necessary funds may be allotted and that special arrangements be made for the execution of the work as rapidly as possible.

Order—dated 8th November 1890, No. 721, Educational.

Approved and transferred to the Public Works Department. It is presumed that the estimates for the house accommodation of the Principal and Vice-Principal will be submitted separately.

(True Extract.)

(Signed) A. BUTTERWORTH,
Acting Assistant Secretary.

From the Director of Public Instruction, dated 15th December 1890, No. 12900.
Endorsement thereon in the Educational Department, dated 23rd December 1890.
From the Director of Public Instruction, dated 16th January 1891, No. 414.
From the Superintending Engineer, V Circle, dated 20th January 1891, No. 23 W.

G.O., dated 4th March 1891, No. 187, Educational.

Read—memorandum from the Public Works Department, dated 7th January 1891, No. 79 C.

Read—the following letter from the Director of Public Instruction, dated Madras, 13th February 1891, No. 1457. :—

In returning the papers received with reference on current No. 7, dated 6th instant, I have the honor to state that four estimates noted below for improvements and extensions to the Teachers' college buildings were submitted to Government with this office letters Nos. 9294 and 12900, dated 10th September and 15th December 1890, respectively :—

		RS.			RS.
A	... ... for	16,052	C	... ... for	16,000
B	... ... ,,	3,000	D	... ... ,,	3,980

2. The estimate of Rs. 16,052 is simply a revision of the estimate of Rs. 14,460 sanctioned in G.Os., No. 354, Educational, dated 16th June 1888, and No. 2068 W., Public Works Department, dated 9th July 1888, chiefly intended for adaptation and improvement of the old school-house at Saidápet for the *normal department of the college*. It provided not only for some improvements of the old building, but also extension by construction of additional rooms on the southern side. A sum of Rs. 14,484 is reported to have already been spent in this connection and the work is, I believe, complete and the rooms have been occupied by the Principal. This revised estimate was sanctioned in G.O, No 721, dated 8th November 1890. The revision of the estimate was not due to any request from the department but to increase in cost of work during actual construction [*vide* items (2) concrete work, (5) moulded brick-work, (14) roofing with Mangalore tiles, (18) teakwood work].

3. Here I beg to note that the estimate of Rs. 16,000 (item C referred to in the following paragraph) for the extension on the northern side was received in this office on the 22nd July 1890 and the revised estimate of Rs. 16,052 for improving the school-house, already referred to, on the 1st August 1890. The latter was regarded as a revised estimate of the former item and it was through this confusion that, with his letter of 10th September 1890, Dr. Duncan submitted to Government the revised estimate of Rs. 16,052 as the estimate for the northern extension (C). I was not aware of the error which he had inadvertently committed when submitting in December the estimate for the northern extension, Rs. 16,000 (C), which had thus been lying in my office from the 22nd July. I regret that I did not notice the mistake which had been made when submitting this estimate.

4. On the reorganization of the college in 1890 (*vide* G.O., No. 21, dated 14th January 1890, Educational), it was found necessary, as explained in para. 11 of my letter recorded therein, to provide (i) for additional accommodation for the increased number of normal students and for classes for science and special instruction for drawing, &c., and (ii) for houses for the Principal and Vice-Principal. A provision of Rs. 30,000 was made in the Provincial Civil Works budget for 1890-91 under part I, class B works, and, as the Government accepted the necessity for the additional accommodation, the Executive Engineer was requested in the beginning of 1890 to prepare estimates for the works concerned.

5. The estimate for Rs. 3,000 provides for a permanent shed in the compound of the college mainly intended for the primary school attached to the college. This estimate was also sanctioned in G.O., No. 721, dated 8th November 1890, Educational. Owing, however, to the establishment of the primary normal classes at Triplicane, there is no immediate necessity for the construction of this shed, and the sanction may lie over for the present; but I would observe that it will ultimately be desirable to establish a Kindergarten department at Saidápet, for which a separate room would be required and that this sanction would then be available. The matter, however, may be postponed until things are ripe for the establishment of such a class, more especially as it may be necessary to erect a shed for gymnastics and carpentry in connection with the primary schools, Triplicane.

6. Of the two estimates, viz., Rs. 16,000 and Rs. 3,980, submitted with this office letter No. 12900, dated 15th December 1890, the former (already referred to) provides for the extension of the building on the northern side by six class rooms and for surrounding them by a Mangalore tiled verandah. This estimate awaits the sanction of Government.

7. The estimate of Rs. 3,980 (originally Rs. 4,130) was prepared in 1889 before the reorganization scheme was sanctioned and was intended to provide sitting and drill accommodation for primary class and also to bring the old building architecturally into keeping with the southern extension then being constructed. I did not, however, submit it for sanction, as I thought it preferable, and less likely to lead to complications, to connect it with the northern extension, sanctioned in G.O., dated 14th January 1890. In May 1890, I requested the Executive Engineer to include this work among the new extensions, but, although he has shown the work in the plan relating to the northern extension, he has sent in again a separate estimate which also awaits the sanction of Government. The objects with which I had the estimate prepared still exist and the latter, the architectural unity of the building, makes it more necessary even than before, as, unless this work is carried out, the old building, standing unimproved between the two new extensions, will be extremely unsightly. Large verandahs, I need not add, are a great assistance in the movement of pupils from class to class, and, unless this verandah is provided, pupils passing from the northern to southern extension will have either to go into the open or pass through the small class rooms of the old building, causing disturbance and annoyance.

8. The estimates for the house accommodation for the Principal and Vice-Principal are under preparation and will be submitted as soon as they are ready.

9. Excluding the excess outlay on the work commenced in 1889, the total expenditure proposed is Rs. 22,980 only, made up of the following items:—

	RS.
Permanent shed	3,000
Northern extension for six class rooms	16,000
For enclosing the old building with a Mangalore tiled verandah, connecting in this way the northern and southern extensions ...	3,980
Total ...	22,980

The above sum or Rs. 19,980, excluding the shed estimate, is exclusive of the cost of house accommodation for the Principal and Vice-Principal.

10. In these circumstances I beg to request that the early sanction may be accorded for the estimates in question, so that the works may be commenced as early as practicable.

Order—dated 4th March 1891, No. 187, Educational.

The letter of the Director of Public Instruction will be communicated to the Public Works Department with reference to its memorandum, dated the 7th January 1891, No. 79 C.

2. The following estimates are approved:—

(i) The revised estimate, amounting to Rs. 16,052, for the completion of the southern extension;
(ii) The estimate for Rs. 16,000 on account of the extension on the northern side; and
(iii) The estimate for Rs. 3,980 for the improvement of the old block.

The plans and estimates will now be transferred to the Public Works Department.

(True Extract.)

(Signed) A. BUTTERWORTH,
Acting Under-Secretary.

Order—dated 16th March 1891, No. 762 W., Public Works.

The undermentioned estimates for additions and improvements to the Teachers' college at Saidápet, Madras, are sanctioned and classified as Provincial, Civil Buildings, Original Works:—

	RS.
(1) Adapting and improving the late Saidápet High school building to provide accommodation for the normal department of the Teachers' college, No. 111 W. of 1890-91	16,052
(2) Extending the northern side of the Teachers' college to provide six new class rooms, No. 112 W. of 1890-91	16,000
(3) Constructing a Mangalore tiled verandah round the Teachers' college building, No. 113 W. of 1890-91	3,980

2. The estimate of Rs. 16,052, No. (1) above, supersedes the estimate of Rs. 14,460 sanctioned in G.O., No. 2068 W., dated 9th July 1888. The outlay on the work up to 1889-90 amounted to Rs. 14,484 and a sum of Rs. 1,675 was provided in G.O., No. 1877 W., dated 10th July 1890, for expenditure during the current official year.

3. The Superintending Engineer, V Circle, will arrange for the immediate commencement of the other two works, sanctioned above, and apply for the requisite funds in 1891-92.

4. The estimate of Rs. 3,000 for the construction of a shed in the compound of the college, not required at present, will be returned to the Superintending Engineer.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper :—

Memorandum from the Public Works Department dated 7th January 1891 No. 79 C.

Letter from the Director of Public Instruction, Madras dated 13th February 1891 No. 1457.

In returning the papers received with references on currents No. 7 dated 6th Instant, I have the honor to state that four estimates noted below for improvements and extensions to the Teachers' College building were submitted to Government with this office letters No. 9294 and 12900 dated 10th September and 15th December 1890 respectively.

Two colum

A for Rs 16,052
B. for Rs 3,000.
C for Rs 16,000
D for Rs 3,980

2. The estimate of Rs 16,052 is simply a revision of the estimate of Rs 14,460 sanctioned in G. O's No. 354, Educational, dated 16th June 1888, and No. 2068 W, Public Works Deptt.

Department, dated 9th July 1880, chiefly intended for adaptation and improvement of the old school house at Saidapet for the Normal Department of the College. It provided not only for some improvements of the old building, but also extension by construction of additional rooms on the Southern side. A sum of Rs 14,484 is reported to have already been spent in this connection, and the work is, I believe, complete and the rooms have been occupied by the Principal. This revised estimate was sanctioned in G. O. No. 721, dated 8th November 1890. The revision of the estimates was not due to any request from the Department, but to increase in cost of work during actual construction — vide items (2) Concrete work, (5) Moulded brick work, (14) Roofing with Mangalore tiles, (18) Teakwood work. &c.

3 Here I beg to note that the estimate of Rs 16,000. (Item C. referred to in the following paragraph) for the extension on the Northern side was received in this Office on the 22nd July 1890 and the revised estimate of Rs 16,052 for improving the school house already referred to, on the 1st August 1890. The latter was regarded as a revised estimate of the former item; and it was through this confusion that with his letter of 10th September 1890 Dr. Duncan submitted

to

to Government the revised estimate of Rs 16,052 as the estimate for the Northern extension [C]. I was not aware of the error which he had inadvertently committed when submitting in December the estimate for the Northern extension — Rs 16,000 (C.), which had thus been lying in my office from the 22nd July. I regret that I did not notice the mistake which had been made when submitting this estimate.

4. On the reorganization of the College in 1890, vide G. O. No. 21 dated 14th January 1890 Educational, it was found necessary, as explained in para 11 of my letter recorded therein, to provide (i) for additional accommodation for the increased number of Normal students and for classes for Sciences and special instruction for drawing &c and (ii) for houses for the Principal and Vice-Principal. A provision of Rs 30,000 was made in the Provincial Civil works Budget for 1890-91 under Part I, Class B works, and as the Government accepted the necessity for the additional accommodation, the Executive Engineer was requested in the beginning

+ not comd. b/ v D

of 1890 to prepare estimates for the works concerned.

5. The estimate for Rs 3,000 provides for a permanent shed in the Compound of the College mainly intended for the Primary school attached to the College. This estimate was also sanctioned in G.O No. 721 dated 8th November 1890 Educational. Owing, however, to the establishment of the Primary Normal classes at Triplicane, there is no immediate necessity for the construction of this shed, and the sanction may lie over for the present; but I would observe that it will ultimately be desirable to establish a Kindergarten department at Saidapet for which a separate room would be required, and that this sanction would then be available. The matter, however, may be postponed until things are ripe for the establishment of such a class, more especially as it may be necessary to erect a shed for Gymnastics and Carpentry in connection with the Primary Schools Triplicane.

6.

6. Of the two estimates viz Rs 16000 & Rs 3,980 submitted with this Office letter No. 12900 dated 15th December 1890, the former (already referred to) provides for the extension of the building on the Northern side by six class rooms and for surrounding them by a Mangalore tiled Verandah. This estimate awaits the sanction of Government.

7. The estimate of Rs 3,980 (originally Rs 4,130) was prepared in 1889 before the reorganization Scheme was sanctioned and was intended to provide sitting and drill accommodation for Primary Class, and also to bring the old building architecturally into keeping with the southern extension then being constructed. I did not however submit it for sanction, as I thought it preferable, and less likely to lead to complications, to connect it with the Northern extension, sanctioned in G.O dated 14th January 1890. In May 1890 I requested the Executive Engineer to include this work among the new extensions but although he has shewn the work in the plan relating to the Northern

extension, he has sent in again a separate estimate which also awaits the sanction of Government. The objects with which I had the estimate prepared still exist: and the latter, the architectural unity of the building, makes it more necessary even than before, as unless this work is carried out, the old building standing unimproved between the two new extensions, will be extremely unsightly. Large verandahs, I need not add, are a great assistance in the movement of pupils from class to class and unless this Verandah is provided pupils passing from the Northern to Southern extension will have either to go into the open or pass through the small class rooms of the old building causing disturbance and annoyance.

8. The estimates for the house accommodation for the Principal and Vice Principal are under preparation and will be submitted as soon as they are ready.

9. Excluding the excess outlay on the work commenced in 1889, the total expenditure proposed

proposed is Rs 22980 - only made up of the following items.

Rs 3,000 -	Permanent Shed
" 16,000 -	Northern extension for six class rooms.
" 3,980 -	for enclosing the old building with a Mangalore Tiled verandah connecting in this way the Northern and Southern extension
Total Rs 22,980	

The above sum or Rs 19980 excluding the shed estimate, is exclusive of the cost of house accommodation for the Principal and Vice Principal.

10. In these circumstances I beg to request that the early sanction may be accorded for the estimates in question, so that the works may be commenced as early as practicable.

Order 4th March 1891 No 187

The letter of the Director of Public Instruction will be communicated to the Public Works Department with reference to its memorandum dated the 7th January 1891 No 79 C.

2. The following estimates are approved:

(i) the revised estimate amounting to Rs 16052 for the completion of the Southern extension; Rupees Sixteen thousand and fifty two

(ii) the estimate for Rs 16,000 on account of the extension on the northern side and Rupees sixteen thousand

(iii) the estimate for Rs 3,980 for the improvement of the old block

The plans and estimates will now be transferred to the Public Works Department.

Letter No. 184

Dated 4th March 1891

From the Educational Depts

[illegible] OVS 13/4/90

NOTE OF REMARKS.

With reference to this office letter No. 79 C d/7th January 1891 returning plans & Estimates in connection with the Teachers College at Saidapet –

The Educational Depts now submit correct plans & Estimates for the necessary requirements of the College & which are detailed as follows

	Rs
(I) Revised Est: for the completion of the Southern Extensions —	16,052
(II) Estimate for the Extension of the Northern side —	16,000
Carried forward Rs	32,052

Brought forward Rs 32,052

(III) Estimate for im-proving the old block —— 3,480

Total Rs — 36,032

Originally it was proposed to construct a shed at a cost of Rs 3,000 in addition to the above, but it is now stated that there is no immediate necessity for the shed & that the est: may lie over for the present.

In this Office memo No 79 C d/ 9th January/91 full explanation regarding the return of the plans & ests: to the Educational Dept: is given

The rates are fair. The plans & Estimates have been countersigned by the Director of Public Instruction & approved in the Educational Dept:

These funds are found in 91-2

It is possible to provide the amount in 1891-92

The undermentioned estimates for additions and improvements to the Teacher's College at Saidapet, Madras, are sanctioned, & classified as Provincial, Civil

Buildings. Original Works.

	Rs
(1) Adapting & improving the late Saidapet High School building to provide accommodation for the Normal department of the Teacher's College — No. 111 W of 1890-91. —	16,052
(2) Extending the northern side of the Teacher's College to provide 6 new class rooms — No. 112 W of 1890-91. —	16,000
(3) Constructing a Mangalore tiled verandah round the Teacher's College building — No. 113 W of 1890-91. —	3,980

2. The estimate of Rs 16,052, No. (1) above, supersedes the estimate of Rs 14,460 sanctioned in G.O. No 2068 W, dated 9th July 1888. The outlay on the work up to 1889-90 amounted to Rs 14,484, and a sum of Rs 1,675 was provided in G.O. No. 1877 W, dated 10th July 1890, for expenditure during the current official year.

3. The Supdg Engineer V Circle will arrange for the immediate commencement of the other two works, sanctioned above, and apply for the requisite funds in 1891-92.

4. The estimate of Rs 3,000 for the construction of a shed in the compound of the College, not required at present, will be returned to the Supdg Engineer.
