G.P

No. 102 W

SUPERINTENDING ENGINEER'S OFFICE,
V Circle, Madras, 807
Chepak, 6. March 1891.

From

Major D. K. Neil Campbell, R.E.

To

SUPERINTENDING ENGINEER, V CIRCLE,

THE

Chief Engineer
P.W. Department

SIR,

Enclosures.

I have the honor to forward, for early sanction, a proposition statement for extra work to be employed in the Chingleput Division while the present scarcity lasts.

The Works now in progress departmentally as Famine Relief Works are-

1. Making a diversion in the Narayanam River at Ponnéri. Estimate Rs. 6220.
2. Repairing and strengthening Narayanam River embankment at Ponnéri. Est. Rs. 2500.
3. Raising & strengthening the bund and repairing masonry work of Kadur Tank. 2760.

4. Raising and Strengthening
the Second and Re-
pairing works of Kumbha.
Kumb Tank - Est. Rs. 3450.

5. Raising & Strengthening
Kot Talayaur River
flood Bank above
Vulloor Junction - 6000.
and there will very shortly be
several others begun.

As these works are being done
departmentally a great deal
of extra work is thrown
on the Division and
Sub Division Offices
especially owing to the
Long Muster Rolls and
ten day Reports and the
existing Office Establish-
ment which is not more
than enough at ordinary

times is not able to cope with
this increase of clerical labor
and current work will fall
into arrears unless more clerks
are appointed.

I would take this opportunity
to point out that if many
more works are to be carried
out

departmentally, a still further
increase not only of office but
of upper Subordinates is
absolutely well be required and
I think it very advisable that
Contract System should be
adhered to as far as possible.
I am of course not in a posi-
tion to say how far the district
is in the Chingleput District
but it is laid down in the
Revenue Code para 38 Chapter
II that if a famine only
amounts to severe scarcity it
will commonly be found sufficient
to enlarge the ordinary work so
as to afford employment to
great numbers than usual
but without any change of
System. The disadvantages
of the Departmental System
are very great & without a
strong and thoroughly trust-
worthy staff work cannot
be done satisfactorily.

I have the honor to be
Sir

Yours Most Obedt Servt

J. Campbell Major R.E.

ENCLOSURES. 1

No. 102 W

Extra Clerk

Forwards for early
sanction as proposed in
Statement for —
to be employed in the
Chungking Division
as per reasons stated
within.

He 12th B 14

For orders.
The establishment
asked for appears necessary.

D

12.

I don't exist. These clerks in the
house office cannot possibly
be wanted for the half dozen of
which workers the office may show
strongly.

1461

13 March

It is distinctly stated that
there were no employed on
the works in making daily
payments I will have the
drafts but this is not so.
It appears that there are to
be employed in the Division
office & I don't think they
are wanted.

Sub
17 March

507 P. W. Dwyer
State by the Chief Eng. P. W. Dwyer
of 16th March 1891.

Letter from the Subt. Eng. & Circle No. 102 W
of 6th March 1891.

Submitted for
the consideration of
Government.

2. The undersigned
considers the clerical
establishment asked for
to be necessary; the execu-
tion of work department-
ally with payments at
short (sometimes daily)
intervals enormously
increases the clerical
labours required.

John B. Dwyer
Chief Eng. P. W. Dwyer.
