23RD MARCH 1891, No. 849 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From the Director-General of Stores, to the Secretary to the Government of Madras, Public Works Department, dated India Office, Whitehall, S.W., 26th February 1891, No. S. 1975.

With reference to the telegram noted in the margin, relative to the bridges for the Vayitri-Gúdalúr road, you will probably have learnt by telegram, before you receive this, what has been able to be done in regard to the 5', 7' 6", 10', 15' and 20' spans. Every effort is being made to get these off by the S.S. *Cuba*, announced to sail 21st March 1891, which is the last opportunity by which shipment can be made to Calicut before that port closes.

My telegram of 24th November last. Please inform me by wire when bridges may be expected.

The 40' and 50' spans will, however, I regret, not be ready in time for the above vessel, as they are not due from the contractors until 7th April 1891, and I shall, therefore, be obliged by your informing me, by telegram, to what port they should be shipped and also the smaller spans should they miss the *Cuba*.

ORDER—dated 23rd March 1891, No. 849 W., Public Works.

Ordered that the following reply be sent by telegram to the Director-General of Stores, India Office, London:—

"In reply to your letter of 26th February last. If bridge work too late for Calicut may be shipped Madras."

2. The General Superintendent, Public Works Stores, will, on arrival of the iron bridges, arrange, in communication with the Superintending Engineer, IV Circle, for their transmission by rail to Calicut.

If the Stores are too late for the port of Calicut, it will probably be best to have them shipped to Madras?

The D.G. wants information by telegram.

Yes. It would be better to ship him to London & his printer. It would be the same - they could then go direct to Calicut by rail.
