GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper :—

From C. J. K. WATSON, Esq., Executive Engineer, Kālahasti Zemindari Irrigation Works, to the Superintending Engineer, IV Circle, dated Rénigunta, 15th March 1891, No. 79 M.

[Letter, dated 9th March 1891, No. 5 K.]

I have the honor to submit proposition statement for increased establishment required. It differs from that sent originally in my No. 31 M., dated 4th March 1891, in the following respect :—

(1) *Clerks*.—Pay of clerks with imprest-holders is reduced from Rs. 25 to 20 in accordance with para. 2 of your letter.

(a) For the head office two clerks are provided—one on Rs. 50 and one on Rs. 30. The changed system of supply of funds, involving copying cash-book, &c., requires this, and further makes it necessary that one of them at least shall have some knowledge of accounts. In accordance with Chief Engineer's verbal approval, I will, pending sanction, appoint two men.

(2) *Draughtsman*.—Here I ask for an increase of pay for the present incumbent. Rengasamy Iyengar was drawing Rs. 70 as head draughtsman, Nos. 3 and 6 Parties, Tank Restoration scheme at Bellary, till they were abolished in April 1890. He then became second draughtsman in No. 1 Party at Madura on Rs. 40. He did not volunteer to come to Rénigunta, but was ordered here and has sole charge, only receiving the same pay he had as second draughtsman at Madura. He has passed first-class examination, Draughtsman's test, Public Works Code.

(3) *Treasure guards*.—It having been settled that I am to have drawing accounts at the neighbouring sub-treasuries instead of the arrangement explained to you in person on 10th instant, the number of guards is reduced from 15 to 10. This last number may appear excessive, but it is only two men per cash chest and two over for escort duty, &c. Considering the places in which these chests have to be kept and taken about, we cannot do with less and I have asked the Pension Paymaster at Ránipet to send them at once.

(4) *Lascars*.—The area of the zemindari is 874 square miles and the head-quarters (Yeeped) is 6 miles from the nearest post office, and there are only 2 post offices in the whole zemindari. Almost all letters have therefore to be sent by special messenger, and over long distances.
