Madras 6 March 1891.

Sir,

With reference to G.O. No. 374 W dated 10 February 1891 sanctioning an estimate & allotment of Rs. 5210 for the reconstruction of the bread mills at the Government Penitentiary, I understand that you wish the grant to be placed at the disposal of the General Superintendent P.W. Workshops & the outlay to be accounted for by him; but the building is in charge of the Consulting Architect to Government and it would cause trouble and inconvenience in the Workshop account to debit the cost of the works under Civil Buildings in the Workshop Division. It would be more convenient as well as more regular to place the grant at the disposal of the Consulting Architect and to adjust the outlay in the accounts of his Division on receipt of the monthly debits from the General Superintendent of the Workshops (Code para 1901) who would treat the

the job like any other workshop job.

2. His course need not prevent your getting from the General Superintendent any information you want in any shape you like as for instance in a Progress Report, if you prefer to get it from him rather from the Consulting Architect, and I have therefore the honor to request that you will kindly arrange to transfer the grant to the Consulting Architect Division.

3. I have also to point out that the percentage charges at 25 per cent which is understood is provided for in the estimate should not be charged to the work as it is a work appertaining to the Department (Vide G.O. No. 2888 dated 27th October 1890)

I have &c
