GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

Office-note from the Examiner, Public Works Accounts, dated Madras, 16th March 1891, No. 1595.

Herewith I submit (by circles) the quarterly reports of completion reports overdue on the 28th February 1891.

2. According to information available, the total number of completion reports certainly overdue on that date was 225, of which 61 were overdue for twelve months and more. Details are shown by circles in the following table:—

Circles.	Number of completion reports due and time overdue.						Total.
	Seven months.	Eight months.	Nine months.	Ten months.	Eleven months.	Twelve and more months.	
I	..	2	8	..	22	17	49
II	12	8	5	5	8	31	69
III	1	..	1	1	1	1	5
IV	6	6	6	2	7	2	29
V	4	2	..	2	4	1	13
VI	13	..	1	1	1	..	16
Consulting Architect	17	6	..	11	1	8	43
Periyár No. I	..	..	..	..	..	1	1
Total	53	24	21	22	44	61	225

3. On the whole there is a reduction of 24 as compared with last report. The Ganjam, Nellore and Consulting Architect divisions are those in which the number of overdue completion reports is greatest, the total numbers being 40, 40 and 43, respectively, and these divisions are also the worst as regards completion reports overdue for an abnormal length of time, thus—

	Eleven months.	Twelve months and more.	Total for eleven months and more.
Ganjam	19	15	34
Nellore	4	23	27
Consulting Architect	..	8	8
Total	23	46	69

These three divisions being accountable for 69 out of 105 completion reports overdue for eleven months and more.

4. As far as Ganjam is concerned it appears from the Executive Engineer's remarks that nearly all the abnormal arrears (over eleven months) will be cleared off before the next report is due.

5. In Nellore the abnormal arrears appear to be to some extent due to delay on the part of the revenue authorities in settling compensation. There are seven cases in which the settlement has apparently taken two or three years and eight in which it has taken already at least twelve months, counting in each case only from the completion instead of from the beginning of the work. This seems to require attention. Of the remaining 29 cases some ten or twelve will apparently be cleared off by next report.

6. In the Consulting Architect's division there are three or four cases in which the closing of the accounts have been delayed for nearly two years.

7. The following table shows in detail the divisions from which replies have not been received to inquiries made by me regarding works for which it seems probable that completion reports are due and also the number of works concerned in each case:—

Divisions.	Inquiries after the examination of accounts for				Total.
	August 1890.	September 1890.	October 1890.	November 1890.	
Ganjam	..	..	20	24	44
Vizagapatam	..	..	..	8	8
Bellary	..	..	21	21	42
North Arcot	..	..	..	47	55
Nagapatam	8	..	..	20	28
Periyar No. I	..	7	2	2	11
Total	8	7	43	122	180

The Executive Engineer, North Arcot division, has not yet returned the inquiry list for August 1890, which was forwarded to him on the 8th November 1890, and there is considerable delay in No. I Periyar division.

ORDER—dated 24th March 1891, No. 882 W., Public Works.

Communicated to Superintending Engineers for attention in continuation of G.O. No. 14 W., dated 5th January 1891.

2. Paragraph 5 of the Examiner's office-note, in regard to delay on the part of the Revenue authorities in settling compensation for land, will be considered in the Revenue Department.
