28TH MARCH 1890, No. 994 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From the Superintending Engineer, V Circle, dated 22nd October 1889, No. 4812.
" " " " 13th November " " 5333.

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Pálar Anicut, 10th March 1890, No. 7784.

With reference to your memorandum No. 480 C., dated 28th January 1890, I have the honor to state that the establishment of the Cuddalore bridge works is already reduced by the transfer of Assistant Engineer Mr. Subrahmanya Pillai and his lascar to the VI Circle, and I am unable to recommend any further reduction in the Bridge Works office and petty establishments for next year.

2. The Executive Engineer, South Arcot, states that he has already given explanation as to the necessity for the temporary establishment referring to that conveyed in para. 4 of my letter, No. 516 A. of 26th April 1889, and adds that the works in his office is not light, but, on the contrary, is always very heavy, so much so, that the present permanent establishment is inadequate to cope with it; that if the temporary establishment, which is the least that can be asked for with due regard to economy, is not allowed, it will be quite impossible to get through current work without considerable arrears and that the services of the temporary establishment are absolutely required for the proper efficiency of his office.

3. The temporary establishment at the Mount is urgently required: the Executive Engineer is quite unable to reply to scarcely any thing at present, but after the separation of the Military Works in March, if the temporary establishment is left, things will perhaps mend in that office. I would therefore recommend its retention.

STATEMENT of Proposition for revision of Temporary Establishment for 1890-91.

ORDER—dated 28th March 1890, No. 994 W., Public Works.

With his letters above recorded, the Superintending Engineer, V Circle, submits, for sanction, proposition statements of temporary establishments required during 1890-91.

2. *Chingleput division*.—The Superintending Engineer applies for one overseer, four clerks, one lascar, one attender and one draftsman for the division. The overseer together with the clerk and lascar required for him should not have been included in the statement, as separate provision has already been made for the overseer, and the Superintending Engineer can himself appoint the establishments required for overseers under the orders communicated with G.O., No. 537 W., dated 16th February 1888. The establishment applied for being excessive, the Government is not prepared to sanction more than one clerk, V class, 1st grade, and one draftsman on Rs. 20 per mensem.

3. *South Arcot division*.—The Superintending Engineer applies for one clerk and one draftsman, but these men cannot be sanctioned as they are not considered necessary.

4. *Cuddalore Bridge Works Sub-division*.—The establishment applied for consists of two clerks, one draftsman, one messenger, one storekeeper, one cashier, and five lascars. As the demand is excessive in consideration of the reduced grant for bridge works during 1890-91, one cashier and two lascars have been disallowed. The lascars required for the overseer may, if necessary, be sanctioned by the Superintending Engineer with reference to G.O., No. 537 W., dated 16th February 1888.

5. A revised statement has been prepared with reference to the foregoing remarks and is sanctioned.

6. The sanction accorded in para. 5 of these Proceedings has been registered as Provincial No. 67 W. of 1889-90, and classified as Establishment, Temporary.
