Superintending Engineer's Office,
3RD CIRCLE,
Bellary 25 March 1891.

FROM,

Col W. L. S. L. S. L.
SUPERINTENDING ENGINEER,
IIIRD CIRCLE.

TO,

THE Chief Engineer
P. W. Deptt.
Madras

Sir,

Your letter no. 1555C dated
19th March 1891.

Enclosures.

I have the honor to explain
that the Chaplain of Bellary drew
the attention of this department to
the want of a well in the Military
Cemetery and suggested the purchase
of a well lying only 100 feet outside
the cemetery enclosure instead of
sinking a new well within - the necessity
of a well in a cemetery being recognized
vide para 4 to annexure A in appendix
to P. W. Code.

It was considered
a good idea that it was ascertained
that the well was willing

to sell the well and as much land
as was necessary to bring it into
the cemetery enclosure extended, and
that this would be much cheaper
than sinking a new well. The Execu-
tive Engineer was accordingly asked
to take the necessary steps to acquire
the well and plot of ground adja-
cent in the same manner as was
done on a former occasion when the
cemetery was extended. The Executive
Engineer however apparently thought
sanction from Government was not
required previous to entering upon
the purchase of the property and
requested the Collector of the District
to effect the purchase. Funds were
provided in an estimate amounting
to Rs 1070 for acquiring the pro-
perty, enclosing it, and forming
channels from the well to the
cemetery.

I beg therefore now that

985/2
formal sanction may be obtained
for the purchase of the property.

I have the honor to be
Sir
Your most obedt servant

H. Stanley Collyer
Supt. Engineer 3 miles
