N^o 1010 J.E.

Supply Engineer's Office,
2nd Circle, Bangalore.
3rd August 1891.

From,

J. Hannan Esquire, 22/6/
Superintending Engineer,
II Circle.

To,

The Chief Engineer,
P. W. Department,
Madras.

Sir,

I have the honor to inform you that under para 832 B. of the P.W. Code, a cooly was employed from 8th May 1891 to end of June 1891 on Rs. 7 per mensem for watering Cuscuta tatties in this Office. The charge was debited to Contingencies, but the Examiner has passed the charge at Rs. 4 per mensem and disallowed the balance on the ground that the rate of pay was very high, and refers me to para 832 B. of the P.W. Code for the rate of pay to be allowed for such men.

2. Nothing has been definitely said in the para referred to laying down a fixed scale of pay for coolies for watering tatties, but a rate of Rs. 4 was fixed as the maximum to be allowed for punka pullers, who are only

only to be employed at the Presidency
town where labor is, it is believed,
cheaper than in the moffussil.

3. ⁵⁰ The duties of a watering cooly
are unlike those of a punda puller,
very difficult especially in places
like Bezvada where water has to
be brought from a distance of
2 furlongs in the scorching sun of
May and June, and where since
the extension of Railways to the
District, labor is not cheaply
procureable.

4. Under these circumstances,
I have the honor to request that
you will obtain sanction of Govern-
ment for the rate of Rs 7 paid to
the cooly for watering talties, this
year in this and the Executive Engineer's
Office, Kistna Eastern Division, and
also for the same rate being paid
in future years - Coolies at Bezvada
are now paid Annas 4 to 5 per piece.

I have the honor to be,
Sir,
Your most obedt servt.,

W. H. M. M. M.
