GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From the Executive Engineer, Madura division, to the Superintending Engineer, VI Circle, dated 18th May 1891, No. 668.

The Deputy Tahsildar's office at Sivaganga having been completed at end of March, I asked the Collector to take it over; but in his letter No. 938 of 7th May 1891 he declines to do so until a cell has been made for the treasury cash chest and racks have been supplied for the record-room.

2. If cells for cash chests are considered to be usually necessary I would suggest that the Chief Engineer may be asked to have them shown on the standard plans and provided for in the estimates.

3. I have informed the Collector that a cell will be built; but it may take some time if bricks have to be specially made, and, as regards the record racks, that it is not usual for this department to supply them in buildings intended to replace old ones, the racks in the old buildings being presumed suitable and sufficient for the new ones. As soon as I have received from him definite information as to the size and number of racks required, I shall submit an estimate.

No. 170 M.D.

Copy submitted to the Chief Engineer, Public Works Department, with reference to the Executive Engineer's suggestion in his para. 2.

2. It is thought the Collector should be instructed to take over the building at once, for the additions he requires can be carried out afterwards.

(Signed) J. W. MARTIN,
22nd May 1891. Offg. Superintending Engineer, VI Circle.

No. 274 D.

Copy forwarded to the Revenue Department with the suggestion that the Collector be instructed to take over the building pending the execution of the additional work required.

2. If it be considered in the Revenue Department that cells for cash chests should be provided in all Taluk offices hereafter constructed, the necessary addition can be made in the revised type designs shortly to be issued.

3. Under para. 971, Public Works Code, record racks should be provided in newly-constructed Government buildings when required.

(Signed) A. C. SMITH, Lieut.-Colonel, R.E.,
29th May 1891. Ag. Joint Secy. to Govt., P.W.D.

Proceedings of the Board of Revenue (Land Revenue), dated 1st August 1891, Mis. No. 5451.

The Hon. Mr. H. W. Bliss.
The Hon. Mr. J. Gross.

Read—the following papers:—

G.O., dated 11th June 1891, Mis. No. 3451, Revenue.

Reference on the above, dated 30th June 1891.

Referred to the Collector for very early remark. It is not very clear what a "cell" is.

2. The Board presumes that the Deputy Tahsildar was supplied with one of the safes, forwarded with Board's Proceedings, dated 26th October 1883, No. 3225.

From S. H. WYNNE, Esq., Acting Collector of Madura, to the Secretary to the Commissioners of Land Revenue, dated 16th July 1891, No. 265.

In returning Reference on Government Register No. 1478 of 1891, dated 30th June 1891, I have the honour to state that, as the place, where the cash chest is to be placed at Sivaganga, is not secure, being unenclosed and absolutely open to the verandahs and compound, I requested the Executive Engineer to provide a cell for the chest before handing over the building to the Revenue Department and at the same time asked for the racks.

2. By a cell is meant an underground receptacle of brick work in which the cash chest can be imbedded. It should have a door (with a look) on the level of the floor.

3. The Deputy Tahsildar was supplied with an iron safe in 1887.

4. The Executive Engineer is in error in stating that I "declined" to take over the building. I asked that these serious defects should be first remedied, but, if he had advanced any reasons why the transfer should not be postponed, they would have been considered.

Resolution—dated 1st August 1891, Mis. No. 5451.

Submitted to Government with reference to G.O., dated 11th June 1891, No. 3451.

2. The Collector was, the Board considers, fully justified by the conditions of the treasury in requiring that a cell should be constructed before accepting the building as secure or complete. He points out that no special demand was made on him by the Executive Engineer to take over charge of the building.

3. As all safes are intended to be imbedded in masonry, it would be as well, the Board thinks, that provision should be made in the estimate of the revised type design for Tahsildars' and Deputy Tahsildars' cutcherries for the necessary number of "cells," by which the Board understands a prepared hole in the ground already lined with masonry.

(True Copies and Extract.)

READ—the following paper:—

Proceedings of the Board of Revenue (Land Revenue), dated 16th July 1889, Mis. No. 4290.

THE HON. J. GROSE, M.A.

Read—the following letter from E. TURNER, Esq., Collector of Madura, to the Secretary to the Commissioners of Land Revenue, dated Kaliarkovil, 30th June 1889, No. 264.

I have the honor to state that the construction at Sivaganga of a new Sub-Magistrate's office with sub-jail and outhouses was recommended by me to the Board in my letter No. 62, dated 10th February 1888, and that the Government were pleased to sanction Rs. 12,570 for the works in their Order No. 1243 W., dated 27th April 1888, Public Works, with the remark that the works should be executed when funds are available. In G.O., No. 6996, dated 21st November 1888, funds were provided for the purchase of a plot of ground for the construction of the buildings. The sale-deed has been executed and the land was handed over to the Public Works Department for making early arrangements for the construction of the building. The Superintending Engineer, VI Circle, replies in his letter No. 128 M.D., dated 14th May 1889 (copy enclosed), that the Government have not provided funds for the work. I have already brought to notice the urgency of the work in my letter No. 62, dated 10th February 1888, and my Head Assistant Collector also considers that it is very necessary that the work should be speedily carried out (*vide* his letter No. 366, dated 17th June 1889, copy enclosed). In these circumstances, I request that Government may be addressed to provide funds for the work as early as convenient.

Resolution—dated 16th July 1889, Mis. No. 4290.

Submitted for the orders of Government.

2. In G.O., dated 27th April 1888, No. 1243 W., communicated with G.O., dated 14th May 1888, No. 2860, R.D., the Government sanctioned the construction of the Sub-Magistrate's office at Sivaganga at a cost of Rs. 12,570, but said that the work should begin when funds become available.

3. Subsequently in G.O., dated 15th November 1888, No. 3619 W., Rs. 1,800 were granted for the purchase of the site on which the building was to be raised. A sum of Rs. 8,000 has been provided in the final issue of the Public Works budget (page 12) under class B works.

4. In his letter, dated 17th June 1889, No. 366, the Head Assistant Collector reports that the present building is in a most dilapidated condition, that parts of it are tumbling down and may give way any day with the result that either some passenger in the street close by may be injured or the sub-jail next to it may be demolished.

Under these circumstances, it is requested that Government will be pleased to treat the work as urgent and transfer the allotment of Rs. 3,000 from B to A class works, so that the work may be put in hand at once.

(True Extract.)

(Signed) M. HAMMICK,
Secretary.

Endorsement No. 1620, Revenue.

Transferred to the Public Works Department for favor of early orders.

Ootacamund, 24th July 1889.

(Signed) C. A. GALTON,
Secretary to Government.

Order—dated 7th August 1889, No. 2121 W., Public Works.

A sum of Rs. 5,000, the available balance of reserve with the Government under Provincial, is appropriated for the Sub-Magistrate's office at Sivaganga. A further allotment will be made later in the year on receipt of information from the Superintending Engineer as to the amount that can be spent on the work during the current official year.

2. Arrangements should be made to complete the work as early as practicable.

REVENUE BOARD OFFICE
MADRAS

Proceedings of the Board of Revenue

(Land Revenue).

Dated 1st August 1891.

No. 5451 Mis.

The Hon'ble Mr. H. W. Bliss
The Honble Mr. T. Gross.

Read Government Order, Revenue Department, dated 11th June 1891 Mis No. 3457, and the following reference thereon dated 30th June 1891.

Referred to the Collector for very early remark. It is not very clear what a "cell" is.

2. The Board presumes that the Deputy Tahsildar was supplied with one of the safes, forwarded with Board's Proceedings dated 26th October 1883, No. 3225.

Mis letter from S. H. Wynne Esquire, Ag. Collector of Madura dated 16th July 1891, No. 265.

Resolution dated 1st day 1891 Mis No 5451

Submitted to Government with reference to Government order dated 11th June 1891, No. 3457.

2. The Collector was, the Board considers, fully justified by the conditions of the treasury in requiring that a cell should be constructed, before accepting the building as secure or complete. He points out that no special demand was made on him by the Executive Engineer to take over charge of the building

3. As all safes are intended to be imbedded in

masonry, it would be as well to record that a provision should be made in the estimate of the revised type design for Tahsildars and Deputy Tahsildars cutcherries for the necessary number of "wells" by which the Board understands a prepared hole in the ground, already lined with masonry.
