THE MILITARY SECRETARY TO THE

RIGHT HONORABLE THE GOVERNOR,

To

The Secretary to Government
Public Works Department
Stonehouse Hill

Sir,

I have the honor, by desire of His Excellency
the Governor, to forward plans and estimates for
constructing quarters for the men of His Excellency
the Governor's Band and to request that you will
be so good as to obtain the early sanction of
Government for the commencement of the work.

The Consulting Architect to Government
writes to say "A grant of Rs 10000/- has been
already made towards the work and if early sanction
is received and the balance of ^{estimate} allotted, the
whole of the building can be completed within the
current official year."

I have the honor to be,

Sir,

Your most obedient Servant,

MILITARY DEPARTMENT.

Sir,

In returning Reference Order No. 3653 of the 1st instant and its enclosure, on the subject of the demolition of the outworks of Fort Saint George and the erection of quarters for the men of His Excellency the Governor's Band on one of the sites thus cleared, I am desired to state that it is unlikely the demolition of these outworks will be completed within the next four or five years. In the opinion of the medical authorities, however, the sites of the outworks seem

objectionable.

objectionable on sanitary grounds, for
the construction of these quarters, and
the local military authorities moreover
object to their erection within the im-
mediate vicinity of the entrance of the
Fort. It is regretted that no suitable
site or building in the Fort is available
for the purpose, but, I am to suggest
on the recommendation of the General
Officer Commanding Madras District
that, as the men have no duties to per-
form in the Fort, and there would
therefore appear to be no advantage
derivable from their location within
it, and as their duties are almost
entirely connected with Government
House and at Quindry, it would
seem most desirable to erect quarters
for them on a site within Government
House Park on the Triplicane side.

2. It is understood that the late
Governor of Madras as well as

General

2292/4
General Smart when in command of
the District, were both in favor this
proposal.

3. I am to suggest that very early
steps may be taken for the provision
of new quarters for these Bandmen, as
those now occupied by them are pro-
nounced by the local authorities as
quite unfit for habitation and
are moreover in a dangerous con-
dition.

Letter from the Quartermaster General No. 1720 mms
dated 27th July 1891.

Exdt. thereon in the Military Dept. No. 4185
dated 29th July 1891.

FOR ORDERS.

P.S. The quarters are better in the Chapin house at all - it is certainly difficult to find a site anywhere else - I should prefer to keep them in the place which I have marked with blue pencil close to Bell's road & behind the C.E. Students' g^r. The meeting room comes the best at some distance from the East & Goshen Streets, north of the Post house. The distance to Gov.'s house would be somewhat less by this arrangement, as also the inconvenience on the park.

Also I should like to know ^{whether} ~~many~~ the present intimate ~~arrangement~~ ^{arrangement} ~~is~~ ^{can} be reduced. Each unoccupied room is fitted two large rooms & a small one, besides another.

With reference to notes
by His Excellency the
Governor and the Honble
Mr Stokes on the draft
G. O. sanctioning the estimate.

2. If it be decided that the quarters shall be built - the only practicable site appears to be the Chief's Park and that suggested in the Quartermaster General's letter.

3. The latter site would be exceedingly inconvenient on account of its proximity to Govt. House; there are objections to the former but they may be met to some extent by placing the quarters further to

I should like to see a plan showing the question sketched at point B of plan, inside the 401. House grounds. I do not agree that the married quarters are in any way too large - but I think the 3 small rooms might be cancelled - at present two of them are no better than store closets. I would rather see two fair sized bedrooms & a smaller store room constructed out of the space.

W. of the bank is likely to be detrimental to health.

1. B. Enquiries should be made as to whether the proximity

to the South than the
Consulting Architect's plan
provides, either to the
East or West of the
Presidency College stables,
the latter as sketched
in pencil on the plan
would probably be the
best position; this
arrangement would
leave the ground to the
West of the Canal open,
and would meet the
Honble Mr. Stokes'
objections to the original
site.

FOR ORDERS.

about

In accordance with your Memo. No. 629 B dated the 5 August 1891, I have the honor to resubmit the site plan for the Bandmen's quarters after marking them in the different positions suggested, as follows:
 I West of the Presidency College Stables
 II Behind College of Engineering students quarters
 III At the point B North East end of the Wallajah Road within Government House grounds.

2. The site I appears to be the best of the 3 now suggested unless the Police Hospital authorities have objections.
3. The ground at site II is too low and would require to be raised considerably.

for drainage and the building would be next
to the Latrines, dead house Laundry and dis-
infecting rooms of the Hospital which appears
to be objectionable.

4. ~~Site III~~ The proximity of the
Tank is not likely to be detrimental to health
if the quarters are built here.

Note for Hon. Member

The accompanying draft has been prepared in accordance with instructions given in Council today.

With regard to the cost of the quarters the undersigned does not think that any appreciable reduction could be made without reducing the accommodation below what is necessary; a reference to the plans will show that the amount of ornamentation accommodation provided is quite insignificant.

With regard to

9/5/91
Hm

His Excellency's
remarks as to the
arrangement of the
rooms in the
married quarters,
the undersigned
would not recommend
any alteration
in the plans; the
two small rooms
are required for
bath & stove room,
and nothing would be
gained by enlarging
either at the expense
of the central room
between them.
