Repairs Proposed to the Marine Villa at Cocanada.

Amount of Estimate Rs 1495

In the above estimate it is proposed to remove the verandah roof by dismantling the existing terrace & substituting a tiled roof instead, by lowering the verandah pillars 2' 8". The span of the verandah is about 18 to 19 feet and from the report submitted it would appear that the existing roof timbers are sufficiently strong to allow of the proposed alteration being executed. The span seems very large for veranda

wanders tiled roofs and it is doubtful whether the rafters will safely carry without some pending Pr. to support them; the estimate further provides for removing the plastering from the walls of the buildings to a height of 4 feet above ground level with Portland Cement instead of lime as the latter was found to decay owing to salt air &c.

The rates as far as can be checked are fair.

The estimate amounts to Rs 1200 exclusive of Rs 295 for establishment, Tools & Plant charges at 24½ p.c.

The countersignature of the President, Port Office has been received and the estimate approved in the Marine Dept.
