His Excellency the Governor in Council observes that when the site for the women's and children's hospital at Madras was selected the fact that a portion of the building would come within the Military boundary, which in this direction is very irregular, was overlooked.

2. The Quarter Master General also brings to notice that under the terms of Circular from the Government of India No. 13 P.W., dated 17th August 1881, the previous concurrence of that Government in the Military Department is necessary for the erection of works or buildings in the neighbourhood of any fort or cantonment.
