GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following papers:—

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Bezváda, 29th October 1890, No. 1890 K.S.

I have the honor to forward herewith for sanction a revised estimate with comparative statement for the work constructing aqueduct for Iskapalle channel over Bhattiprole drain.

2. The original estimate which was sanctioned in G.O., No. 417 I. of 1887-88, amounted to Rs. 23,770.

3. The excess over the sanctioned estimate comes to Rs. 7,100; out of this sum Rs. 3,781 represents excess caused by a sanctioned deviation from the original estimate in increasing the thickness of concrete in foundations from $3\frac{1}{2}$ to 5 feet, which was necessitated by the bad soil met with in the foundations. There was also a slight increase in rate due to the use of surki not provided in the original estimate. The above sum is arrived at by adding together the cost of archwork Rs. 2,157 and the excesses under concrete Rs. 1,624 as shown in the comparative statement. The excess would be more, but a saving is effected of Rs. 1,300 by substituting brick for concrete arches.

4. The other items of excess are sufficiently explained in the comparative statement.

5. The contribution from local funds will now have to be increased proportionately to Rs. 10,609 exclusive of establishment charges.

No. 174 I.

Note by the Chief Engineer for Irrigation.

The frequency with which estimates are exceeded in the Kistna district has already been commented on—see Proceedings of the Madras Government, No. 675 I., dated 19th November 1890.

2. In this case it appears that Rs. 3,781 are due to "deviations" sanctioned by the Superintending Engineer, but he exceeded his powers in giving such sanctions; most of the remainder of the excess is due to the bad management which has resulted in the work being in hand for three working seasons instead of being carried out in one.

3. The necessity for the revised estimate was brought to notice in para. 21 (*f*) of inspection notes with Proceedings of the Madras Government, No. 193 I., dated 24th March 1890, and must have been apparent even before then.

(Signed) G. T. WALCH,
Chief Engineer for Irrigation.

CHEPÁK,
14th November 1890.

To the Joint Secretary to Government,
Public Works Department, Irrigation Branch.

ORDER—dated 27th November 1890, No. 696 I., Public Works.

The revised estimate, amounting to Rs. 30,900, for constructing an aqueduct to carry the Iskapalle channel over the Bhattiprole drain in the Kistna Western division, is sanctioned in supersession of the estimate of Rs. 23,770 sanctioned for the work in G.O., No. 417 I., dated 18th July 1888. Of the excess of Rs. 7,130, Rs. 2,440 will be debited to local funds in addition to the sum of Rs. 8,169 sanctioned in the above order, to be so charged, the balance, viz., Rs. 4,690, being met from the provision now available for unforeseen works of the Kistna delta system, which will then be reduced to Rs. 1,79,866.

2. This sanction has been registered as No. 95 I. of 1890-91, and classified as shown below :—
