GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—again the following paper:—

G.O., dated 10th September 1890, No. 2429 W., Public Works.

Read—the following paper:—

G.O., dated 28th August 1890, Mis. No. 2174 L., Local and Municipal.

Read—the following papers:—

From the President, District Board, North Arcot, dated 10th June 1890, Ref. on Gl. L. F. No. 499.

ABSTRACT.—Requesting order for the payment by the Public Works Department of the amounts required for constructing a road dam on the Arni-Wandiwash road and for lowering the ground below the proposed road dam for reasons stated.

From the Public Works Department, dated 8th August 1890, No. 591 D.

ABSTRACT.—Transferring papers connected with the proposed protective works on the Arni-Wandiwash road near the Cheyár anicut.

Order—dated 28th August 1890, Mis. No. 2174 L., Local and Municipal.

The Government does not consider that the cases referred to in para. 2 of the foregoing memorandum from the Public Works Department are parallel to that now under reference, for those cases relate to damages caused to certain roads by the bursting of old tanks, which were in existence long before the roads were constructed, whereas the present case refers to damage caused to a road by the breach of an embankment erected some years after the road was made. His Excellency the Governor in Council does not however admit that the District Board has any legal claim against the Government arising out of negligence in connection with the breach of this embankment; but, as it is intended to convert that breach into a permanent escape for the flood water of the river in the interests of the anicut across it, which would otherwise have to be lengthened, His Excellency the Governor in Council deems it equitable that the cost of the proposed works (Rs. 4,120), which result from the existence of this escape, should be met from Provincial funds as requested by the District Board.

(True Extract.)

(Signed) J. F. PRICE,
Chief Secretary.

Order—dated 10th September 1890, No. 2429 W., Public Works.

Communicated to the Superintending Engineer, V Circle, for information and guidance.

(True Extract.)

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

READ—also the following paper :—

From W. J. H. LE FANU, Esq., President, District Board, North Arcot, to the Chief Secretary to Government, dated Chittoor, 16th December 1890, Ref. on Gl. L. F. No. 3775.

I have the honor to state that, on my return from leave, I saw G.O., No. 2174 L., Mis., dated 28th August last, sanctioning a sum of Rs. 4,120 from Provincial funds and forwarding to the Public Works Department the plans and the estimates for the construction of the road dam on the Arni-Wandiwash road and for lowering the ground below it. I, thereupon, addressed the Executive Engineer, North Arcot division, to inform me what steps were taken towards the execution of the works. In reply, he states, in his letter, dated 2nd instant, No. 877 M., that the plans and estimates have not been received by him. The plans and the estimates for Rs. 4,120 prepared by the District Board Engineer were approved of by the Superintending Engineer, but, when they were sent by him to the Chief Engineer for approval and provision of funds by the Public Works Department, the latter officer, while declining to provide funds, suggested that the road dam might be lengthened on both sides. As this is an important work and as the Superintending Engineer himself has seen the locality and approved of the estimates, I beg to request that Government will be pleased to instruct the Public Works Department to carry out the work departmentally.

No. 5.

Transferred to the Public Works Department.

FORT ST. GEORGE,
8th January 1891.

(Signed) N. S. BRODIE,
Ag. Assistant Secretary.

ORDER—dated 2nd February 1891, No. 301 W., Public Works.

The estimates, aggregating Rs. 4,120, for constructing a road dam at the 31st mile of the road from Arni to Wandiwash in the North Arcot district and for lowering the ground below the proposed dam are sanctioned and a sum of Rs. 4,120 is appropriated for the work from the Provincial reserve with the Government. The Superintending Engineer will see that the work is put in hand with the least possible delay.

2. This sanction has been registered as Provincial No. 98 W. of 1890-91 and classified as Communications, Original Works.

Note.

With reference to the Hon. Members' remarks on the drop in L.P. in 301 W dt 2.2.91, the undersigned has the honour to state that L.P. dated 18th August 1890 No 2174 A. Mis. Local & Municipal, was addressed to & communicated to the Irrigation Engrs. vide No 2429 W dt 10.8.90.

On receipt of the Collector's letter No 3775 dt 16.12.90 (transferred under L. Gen. endorsement No 5 dt 8.1.91) search was made in the Irrigation Branch for the plans & estimate - these were finally reported to be not forthcoming in the Irrigation Office on 21.1.91, & a reference was then

Mis. 14.11.91

made to the Local & Mun. Dept, when it transpired that the documents had been retained in that Dept. all along. They were received from the L. & M. Dept on 23 June, & after technical scrutiny in the Chief Engr's office, a draft order was circulated for approval on the 29th.

To save further delay, the papers were sent to press at once on return from the Hills, & this explanation is now submitted after issue of the G.O.

The Government does
the cases referred to

Mr. D.

Will you kindly see again if the plans & estimates are in your Office.

All the papers sent to Chief Secy with this Office No 5-91 D of 6.8.90 were returned apparently with Gv. 2174 L. dated 28.8.90, & these we sent to Mr. D. with Gv. 2429 W of 10.9.90.

Two of the plans are in the file but 3 more & the estimates are required.

Will you please look up your Office Corresp. from Chief Secy Gv. 2429 W of 10.9.90. The plans & estimates required possibly have been returned by you to the S.D. If we can ascertain this fact it will be sufficient.

Checked to Date

C.A.W.

Cr
16.1.91

A further search has been made for the plans & Estimates in question but they cannot be found in this Office, ~~& as they appear to have been returned to the S.D.~~ by this Office.

~~The papers returned to this~~

30/90

All papers, including plans were no doubt sent to the Chief Secy with your No 591 D. S. & 90 but it is not clear that all came back from the Chief Secy with Gv. 2174 L. Dated 28 August 90. The presumption is, judging from the entry at the foot of the Gv, that only a file of papers came back. This point may be cleared up by a reference to the Public Dept —

How the two plans you refer to, ~~in the file~~ left to the Office there is nothing to show —

There is no record of the plans & estimate having been returned by this Office to the Secy.

Note for the Asst. [illegible]

301/30

With reference to your despatch No. 5-98-1-91, will you kindly see if the file in your office contains the plans estimates of the proposed road-dam on the Ami. Wandawash road.

The plans & estimates were sent to Agm. Despatch under this office No. 5-91 Dy 28.8.90, together with the P.W.D. file on the subject.

Our original papers were returned with Gs. Dy 18.8.90, No. 2174 A (Revn) but we cannot trace whether the plans & estimates were returned at the same time, & we cannot find them here.

If not returned to P.W.D., does your despatch book show that they were returned to the Dist. Board N. Arcot?

Kindly do reply early, as your endt. No. 5 above mentioned

[illegible] at the cases referred to

has been delayed in dispatch up to date, owing to the necessity for the plans & estimates.

Proposed road down on the Crown Woodwork road.

It was decided in Go. of 18.6.90. No 217 Land Dept (Go. 2429 W of 10.9.90) that this work should be carried out from Provincial funds.

In the present current, the President Dist. Board urges the early execution of the work.

Some time has been lost in searching for the plans & estimates & these documents have now been obtained from the L. & W. Dept.

The plan & estimate now require sanction & allotment of funds in the Budget.

For orders that

Sanction may be accorded.

I note on the paper will be found attached to No 3084 C dt 18.7.90.

The plans & estimate originally came up in the Irrigation Branch, & noted by D.E.E. on the professional details of the works will be found among the earlier papers.
