GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers :—

From Colonel E. H. EYRE, Officiating Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 22nd November 1890, No. 925 M.W. (Volunteers).

I am desired to report, for the information of Government, that the necessity for the early provision of an armoury and quarters for the Sergeant Instructor attached to the Yercaud Rifle Volunteers having been brought to the notice of this office, the General Officer Commanding Madras District was requested to place himself in communication with the Public Works Department in view to plans and estimates being prepared for the provision of the necessary accommodation.

2. Plans and estimates were accordingly prepared for the construction of the necessary quarters, &c., on a site selected for the purpose on Government land, but in submitting them, for the approval of the Commander-in-Chief, the General Officer Commanding Madras District brought to notice that, at his recent inspection of the Volunteer Corps, a private building was pointed out to him, which he considered well adapted for quarters for the Sergeant Instructor as well as for an armoury and very much more conveniently situated than the site selected for the construction of quarters. An estimate was thereupon called for for its purchase and adaptation to the required purposes, but although more than six months have elapsed His Excellency regrets this is not yet forthcoming.

3. As there would seem to be no immediate prospect of the estimate being obtained from the Public Works Department, and to avoid further delay, I am now desired to forward, for the information of Government, the accompanying letter,* with one enclosure, from the General Officer Commanding Madras District and to recommend that Government may be pleased to cause steps to be taken in view to the purchase of the building in question and to express the hope that it may be found possible to make the necessary provision of funds for the purpose, in view to the accommodation, which is much needed, being provided as early as possible, Government thus being saved the cost of hiring quarters for the Sergeant Instructor.

* No. G/852 of 31st October 1890.

No. 7199, Military.

Transferred to the Public Works Department in view to steps being taken for the purchase of the property in question.

FORT ST. GEORGE,
25th November 1890.

(Signed) H. R. SHELLEY, Colonel,
for Secretary to Government.

No. 4965 C.

Referred to the Superintending Engineer, IV Circle, for early submission of a plan and estimate for the purchase and adaptation of the private building in question. Explanation of the delay in furnishing the military authorities with the plan and estimate should be given.

2. The return of these papers is requested.

MADRAS, 1st December 1890. (Signed) J. PENNYCUICK, Colonel, R.E., Secretary to Government, P.W.D.

From Lieutenant-Colonel R. R. E. DRAKE-BROCKMAN, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Mullur, 6th January 1891, No. 7/E.W.

In returning the original papers bearing your endorsement No. 4965 C. of 1st December 1890, I have the honor to submit, for your information, letter No. 6001 of 20th idem from the Executive Engineer, Coimbatore division, framing plan and valuation statement of the building proposed for the quarters of the Sergeant Instructor at Yercaud.

2. The Executive Engineer's valuation of the buildings without site amounts to Rs. 4,550. The price demanded by the owner for the building together with the site is Rs. 4,800, which is not considered excessive.

ENCLOSURE.

From G. B. LAMBERT, Esq., Executive Engineer, Coimbatore division, to the Superintending Engineer, IV Circle, dated Coimbatore, 20th December 1890, No. 6001.

With reference to your endorsement No. 742 C.I., dated 12th September 1890, I have the honor to forward herewith a valuation statement and plan of the buildings proposed to be purchased for the quarters of the Sergeant Instructor and for the armoury at Yercaud.

2. I also forward a statement showing the accommodation compared with that sanctioned for a Sergeant Instructor, from which it will be seen that the accommodation is not only not inferior to that sanctioned, but is on the whole in excess.

3. I consider the building suitable and that the price of Rs. 4,800 demanded for it together with the armoury is reasonable, as although it exceeds my valuation yet it includes land to the extent of about 1¼ acres on which the buildings are built.

4. The site is a much better one and in my opinion healthier than the one on which it is proposed to erect the new buildings, for which plans and estimates, amounting to Rs. 5,495, were submitted with my No. 889, dated 25th February 1890.

5. The buildings which are in fair order require slight repairs and the armoury and shop require slight improvements, such as providing two or three windows to give more light and ventilation and putting down some sort of substantial flooring, as there is none at present. These repairs and improvements I pointed out to the owner, Mr. Stephens, when I inspected the building, and, as he agreed to carry them out at his own expense before handing over the building, I have deducted nothing on this account in the valuation statement.

6. I strongly recommend that these buildings be purchased. By so doing there will be, besides the advantages pointed out, a net saving of Rs. 695 or Rs. 390 on the main building and out-houses without the armoury and shop.

7. I regret the delay in submitting the valuation statement, partly unavoidable, owing to the pressure of work, and partly to the difficulty I have had of arriving at a correct data for work done at Yercaud, as in recent years so little work has been done there by this department that there are no lists of rates available in this office.

I return the rough sketch as requested.

303/2

From Brigadier-General E. H. EYRE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 26th January 1891, No. 149 M.W. (Accounts—Budget Estimate).

In returning, as requested, the correspondence forwarded to this office with Military Department No. 436 of the 21st instant, I am desired, in reply, to say that the Commander-in-Chief approves of the proposal to appropriate the sum of Rs. 4,800 required for the purchase of the building proposed to be utilized as an armoury and as quarters for the Sergeant Instructor attached to the Yercaud Rifle Volunteers from the available balance of the amount surrendered from the current year's grant for the Calicut barracks and to state that His Excellency hopes to be in a position to submit at an early date proposals for the utilization of the remaining amount available for distribution.

2. I am to express the hope that the necessary repairs and improvements to the building may be carried out as soon as possible, in order that it may be available for use by the volunteers by the commencement of the ensuing official year.

No. 601, Military.

Transferred to the Public Works Department with reference to endorsement No. 208 C., dated 16th January 1891, the accompaniments of which are herewith returned.

FORT ST. GEORGE, 28th January 1891. (Signed) A. KENNEY-HERBERT, Brigdr.-Genl., Secretary to Government.

ORDER—dated 2nd February 1891, No. 303 W., Public Works.

The purchase for Rs. 4,800 of the building in question for adaptation as quarters for the Sergeant Instructor, Yercaud Rifle Volunteers, is sanctioned, and the amount is appropriated by transfer from the balance of Rs. 7,519 referred to in para. 3 of G.O., No. 2950 W., dated 7th November 1890.

2. The Superintending Engineer, IV Circle, will take very early steps for the execution of the requisite documents conveying the property to Government and he will further see that the repairs and improvements stated to be necessary are carried out without delay.

3. The sanction accorded in para. 1 has been registered as Imperial No. 6 W. of 1890-91 and classified as Military, Original Works.

Quarters

The purchase for Rs. 4,800 of certain building for adaptation as — for the Sergeant Instructor, Yercaud Rifle Volunteers, sanctioned.

Yrs. 202

3c3/3

Yercaud 8th September 1890.

From

The Commandant

Yercaud Rifle Volunteers

To

The Assistant Adjutant General

Madras

Sir

In reply to your letter Yrs. 2934 of the 7th inst. enquiring when the report called for on the question of purchasing Quarters for the Sergt. Instr. instead of building new ones through the agency of the P. W. D. is likely to be submitted, I have the honor to state that I have been waiting all this time in hopes of receiving Plans and Estimates of the new Quarters, and of those it is proposed to purchase, from the Executive Engineer of the Division. But as, though I have written him several letters, and 3½ months have elapsed since he inspected the house it is proposed to buy, I have not yet received them, I see no object in further delay and will submit my report at once,

2. I understand that his estimate for the proposed new Quarters, with Outhouses and Armoury is Rs 55m. The price of the building it is proposed to purchase, also including Outhouses and Armoury is Rs 50m/- with the furniture now in it, or Rs 42m/- without it. - It was inspected on the 19th of May by the Executive Engineer who suggested certain trifling alterations which the Proprietor at once agreed to execute at his own expense if Government purchased the property.

3. The only advantage that occurs to me in building new Quarters in preference to buying them, is that, being new, no Repairs should be necessary for several years. The disadvantages on the other hand are that, though central, the proposed site is at a considerable distance from the dwellings of any of the Volunteers, and ~~it~~ is situated on the side of a hill which is very much exposed to the north east monsoon, moreover the Quarters would take a certain time to build: which, judging from the time it takes to prepare the plans, is likely to be very considerable, if entrusted to the P. W. D.

4. The advantages of purchasing the buildings in question are (1) that the Sergeant Instructor

303/11

could go into them at once: (2) that the site is fairly level, dry and healthy, and is close to the house of the Colour-Sergeant:- who efficiently performed the Sergeant Instructor's duties for several months during the illness of the late Sergeant Instructor but who could scarcely be expected to do so, should occasion again ~~arise~~ arise, if new Quarters be erected so far from his house as the site proposed.

The existing buildings are also very near the houses of several members of the Corps: (3) that they contain more accommodation than it is proposed to provide if new Quarters be built: (4) that the Sergeant Instructor (as well as his predecessor), prefers them to the proposed new buildings: and, as he will have to live in them, his opinion is entitled to some weight. - The only disadvantage I can think of is that, though very well built, they are of course likely to require Repairs sooner than buildings which are absolutely new.

5. In conclusion I have the honor to say that if it is decided to provide permanent Quarters for the Sergeant Instructor instead of renting them as at present, I am in favor of purchasing the buildings in question in -

in preference to constructing new ones, they were pointed out to the General, who was so good as to go over them on his last inspection:- and I believe he was favorably impressed with them. A rough Sketch plan of them is herewith enclosed.-

I have the honor to be
Sir
Your most Obedient Servant
