G.O., dated 23rd March 1891, No. 2020, Revenue.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 6th March 1891, Mis. No. 1465 :—

Read—the following letter from A. T. ARUNDEL, Esq., Collector of Kistna, dated 12th February 1891, Extra No. 16 :—

I have the honor to report that, at my inspection of the office of the Town Sub-Magistrate of Guntúr at the close of last year, I found the building in a dilapidated condition and requested the Engineer to report upon it. The letters of the Superintending and Executive Engineers are enclosed and it will be seen that, as was unavoidable, they condemn the building and consider that a new one should be built.

2. Although the Sub-Magistrate could make shift to hold office in the building as long as it holds together, it will be seen from the enclosed plan that it is out of the question to build another office in the same cramped yard where even space for necessary offices is wanting.

3. I consider that, instead of building a new office for the Town Sub-Magistrate, that officer should be moved into the present taluk cutcherry and the opportunity taken to provide a proper taluk cutcherry for the Tahsildar.

4. I enclose two plans, one of the taluk cutcherry and the other of its position with regard to adjacent buildings. It will be seen that the cutcherry is one of the old-fashioned square buildings with an opening in the middle, which is now half filled by a building $16\frac{1}{2}' \times 9'$, used as the treasury. The records are cramped and the Taluk sub-Magistrate tries his cases in a narrow room shut off from the rest of the building. The sub-jail wards are of modern type, but, as will be seen from the second plan, the cutcherry has no compound and the prisoners are taken for cooking and for purposes of nature to buildings that lie close to the high road in an open space over which there is constant traffic by the public in every direction.

5. The arrangements for prisoners are open to serious objection and the main building is exceedingly inconvenient as a taluk cutcherry for a Tahsildar and his full complement of clerks. A new building must be erected and the Town Sub-Magistrate may therefore be transferred to the present taluk cutcherry and the new offices built for the Tahsildar and his staff.

6. An excellent site for the taluk cutcherry can be obtained opposite the new suburb, which is springing up under careful supervision beyond the railway station.

Resolution—dated 6th March 1891, Mis. No. 1465.

The Collector's letter and its accompaniments will be submitted for the orders of Government.

2. From these papers it will be seen that the Town Sub-Magistrate's office at Guntúr is unsafe and that the Tahsildar's office is altogether unsuited for present requirements. The Collector accordingly proposes to build a new office for the

Tahsildar and transfer the Sub-Magistrate to the present Taluk office. The Board approves these proposals and submits them for the sanction of Government. An excellent site is reported to be available for the building opposite to the new suburb now springing up beyond the railway station.

3. The Board presumes that the present Tahsildar's cutcherry is the property of Government. If so, the Collector will be requested to report how he would dispose of it after it has been vacated.

Order—dated 23rd March 1891, No. 2020, Revenue.

The Collector's proposals, supported by the Board of Revenue, are approved. Orders will issue in the Public Works Department for the preparation of plans and estimates for a new Taluk office at Guntúr.

2. The reference to Tahsildar's cutcherry in para. 3 of the Board's Proceedings is evidently a mistake.
