From J. H. A. Tremblere Esquire
Ag Collector of Chengput to the Executive
Engineer, Buckingham Canal Division
dated 5th March/91. No. 120.

I have the honor to request that
you will be good enough to inform me
whether you require any Civil paying
officers to be employed on large public
works that have been or may have to
be started as special relief works.
As some of the Stock Inspectors are
available, I can send them to you,
if wanted.

No. 1744 dated 7. 3. 91.

Forwarded to the Examiner P. W. Stearns
for favor of opinion whether the officer
the Collector refers to could be utilized
as Cashiers on Famine Relief works
under charge of this Department. Famine
works are just about to be started near
Pulicat, extra assistance in order
to make frequent payments will very
shortly be required.

Copy letter from the Examiner of
P. W. Accounts to the Executive Engineer,
Buckingham Canal Division dated
Madras 10th March 1891, No. 1474

With reference to your endorsement
No. 1744 dated 7th March 1891, requesting
my opinion as to whether the services
of the Stock Inspectors offered by
the Collector, Chingleput could be
utilized as cashiers on Famine
relief works in charge of the P.W.D.
about to be started, I have the
honor to state that in my opinion,
if you consider that you will
require extra establishment, you
should take early steps to obtain,
through the proper channel, sanction
of Government for its entertainment
and to get something settled as
to the security to be required.

2. If the Stock Inspectors or any
other men whom the Collector can
spare are considered suitable

men

men and can furnish the required security, there can apparently be no objection to employing them.

3. Possibly having regard to the position of these men, about which I have no information, Government might be disposed to dispense with security within certain limits or restrictions as to funds entrusted to them, if you thought it desirable to suggest that it should be done.

1. Letter no. 129 dated 5th March 1890 from Col. J. J. J. J. J.

2. Executive Engineer's endorsement no. 1744 dated 7 March 1891

3. Examiners' reply no. 1474 dated 10 March 1891.

Copy of letter from the Executive Engineer, Buckingham Canal Division to the Superintending Engineer and Circle dated 24th March 1890.

I have the honor to forward for reference and return the marginally noted original papers, and to request to know whether the services of the Stock Inspectors can be utilized at the work in progress at the Pulicat Diversion. It seems likely that there will shortly be an influx of laborers at the work, and, as it is being carried out departmentally by order of the Chief Engineer for Irrigation, it is possible that cashiers will shortly be required on it.

Ac 12. B.C.

Enclosed 2 copies of the correspondence.

Forwarded to the Chief Engineer P.W. Department, with a request that sanction of Government may be

he obtained for utilizing the services
of stock inspectors temporarily as
cashiers on famine relief works
at Publicat diversion.

2. The question of taking security
from these men will be further
investigated, and reported on,
if their exemption is found necessary.

(W)

If the stock inspectors
are found to be absolutely
required on the work in
question, their services
may be accepted by
the Engr. Engineer, but a
statement in the prescribed
form showing the extra
expenditure to be incurred
by the P.W.D. on account
of their pay should be
submitted for sanction
without delay.

2. A further report
on the subject of the
security to be taken
from these men
will be awaited.
