GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

Office-note from the Examiner, Public Works Accounts, dated Madras, 24th March 1892, No. 444 S.A.

I herewith forward copy of a letter received from the officer in charge of the Cuddapah division requesting to be furnished with information as to the mode of adjustment of certain establishment and tools and plant charges in connection with famine relief works.

2. With a view to prevent complications in the accounts of Executive Engineers, as also to enable this office to carry out correctly the instructions laid down in the Famine Code, page 17, para. 101 (viz., that such of the charges as are in excess of the ordinary Public Works establishment should be debited by the Examiner to the "Civil Department" in his exchange accounts), I beg the favour of issue of orders of Government directing all Executive Engineers to maintain a clear distinction in their salary and travelling allowance bills between (a) *Ordinary Public Works Establishments* and (b) *Establishment in excess thereof due to famine*.

3. The latter head will apparently consist of establishment transferred from outside for famine duty or specially entertained here in connection with famine relief works, it being immaterial whether the officers and subordinates transferred from outside are actually employed on famine relief works or are posted to work in a non-famine district to replace ordinary Public Works establishments deputed for famine duty.

4. The above distinction may best be effected by the excess establishment being entered in salary and travelling allowance bills under the head "Famine." Executive Engineers would then, as a matter of course, debit the payments to such establishments to the "Civil Department" passing the charges through the suspense head "Famine relief" in their accounts.

5. As regards contingencies, I am of opinion that no such distinction need be maintained, as it would be difficult to distinguish what should and what should not be debited to famine. Considering the above, and considering also that the amounts debitable to famine will, when compared with other establishment charges, be very trifling, I would recommend that contingencies should be dealt with in the same way as charges on account of tools and plant, viz., that the *whole* of the contingent expenditure incurred should be debited to "Provincial establishment."

6. If the above views meet with the approval of Government, I would also suggest that Executive Engineers may be instructed to furnish this office with statements of all such establishments employed since the commencement of famine operations.

ENCLOSURE.

From the Sub-Engineer in charge of Cuddapah division, to the Examiner of Public Works Accounts, dated 10th March 1892, No. 153 E.

With reference to your letters Nos. 588 E.E. and 116 E.E., dated respectively 5th March 1891 and 21st January 1892, I have the honour

Charges incurred in February 1892.

	Rs.	A.	P.
Salary of Mr. A. M. Foord, Executive Engineer, from 20th to 31st January ..	232	4	2
Contingent charges, such as conveyance of office records and stationery and telegraph charges ..	28	7	6
Tools and plant charges, conveying levelling instruments, office furniture, &c. ..	6	15	7
Total ..	267	11	3

to inform you that the marginally noted charges incurred in February 1892 on account of famine relief works have been debited by me to the suspense head Famine Relief and re-adjusted to Public Works heads of account as it is not clearly understood, as regards establishment and tools and plant charges, what amounts are to be debited to Civil department as abnormal charges and what supporting accounts are thereby necessary.

2. I request to be informed whether the pay and travelling allowance of Mr. A. M. Foord, Executive Engineer, and of his overseers permanent should be re-adjusted finally to Public Works heads of account and those of temporary establishment, such as clerks and lascars engaged on famine duty, to Civil department and in the latter case whether separate salary, travelling allowance and contingent bills headed famine relief adjustable by Civil department should be prepared and submitted for audit.

I solicit clear instructions on these points.

ORDER—dated 31st March 1892, No. 1048 W., Public Works.

The suggestions of the Examiner are approved and are communicated to officers concerned for information and guidance.
