No. 761 NL

Superintending Engineer's Office

II CIRCLE, Bypass

Dated 28. 3. 1892.

From,

J. Hannan Esquire,

Superintending Engineer,

II Circle.

To,

^{8/10}
The Chief Engineer,
Public Works Dept.,
Madras

Sir,

I have the honor to report that Mr O'Connell has now inspected a considerable number of the minor tanks in the Northern Taluqs of the Malabar District & checked the estimates for repairing same as famine relief works prepared by the Revenue Department. He reports that the repairs needed have been over estimated fully 70 per cent. and that the petty repairs required are such as cannot be carried out by professional agency.

2. There are but few superficial works that can be carried out in these Taluqs

talugs as famine relief works.
It must therefore be clearly recognized
that if there is a failure of the
next monsoon, it will be necessary
to start the construction of the railway
through these talugs as a famine
relief work.

I have the honor to be,

Sir,

Your most obedient servant,

J. Hannan
Supt. Engineer
Bund

1058/2
