Finance Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers—

Proceedings of the Government Public Works Department N^o 2634 W. dated 1st October 1891 sanctioning the transfer to the Revenue Department of the Conservancy Establishment (1 Lascar on Rs 6 and 2 Lascares on Rs 5 each) employed on the Tattiyam Chinna-
nikal river channel in the Tiruvini Taluk Trichinopoly District, to which channel amongst other Madras Department had previously extended the voluntary irrigation cess system.

Proceedings of Government Public Works Department N^o 3213 W. dated 1st December 1891 communicating to the Superintending Engineer VI Circle, Office note from the ^{Engineer} Public Works Accounts, stating that the above establishment ceased to be pensionable on its transfer and requesting therefore the submission of an application for such compassionate allowance as the men may be entitled under rules on abolition of appointments.

Endorsement of the Public Works Department N^o 267 C. dated 16th January 1892 referring

referring to the Financial Department office
note from the Examiner Public Works Accounts
expressing opinion that the men in question
cannot be granted compensation pensions so
as much as their transfer did not result in
any saving to the state. - Vide Article 471 of
the Civil Service Regulations.

Endorsement of the Public Works
Department N° 533 C. dated 8th February 1892
Letter from the Accountant
General dated 7th March 1892 N° 703:-

With reference to your official memo-
randum N° 292 dated the 15th of February 1892
referring to me for report whether the lascars
therein alluded to can be allowed to count their
services for pension after their transfer from the
Public Works Department to services paid from
the Irrigation Cess Fund, I have the honor to
state that as the Government itself administers
the Irrigation Cess Fund which is an Incorporated
Local Fund, it may treat the service as
pensionable under Article 858 of the Civil
Service Regulations, and that as the proportionate
pension will be ultimately payable from that
Fund under Article 860 of the Regulations no
pensionary contribution will be necessary.

2. The enclosures to your memo-
randum under reply are herewith returned.

returned.

Order 22nd March 1892 N° 359

As the Irrigation Cess Fund is made
up of voluntary contributions raised in particular
localities for particular purposes and there is
no certainty that the fund of the Lo Nyam
Channel will be in existence when the
lascars come up for pension, the Government
considers that no action can be taken under
Article 858 of the Civil Service Regulations.

The usual pensionary contribution
will accordingly be recovered from the
Channel fund so long as the men continue
to be paid from it and the service will
then become pensionable.
