Resolution—

It has been found necessary at times to engage temporary employes not only for special works for which separate establishments are sanctioned, but for works of a general nature and in order to supplement the permanent Engineer establishment. In all such cases the temporary staff is required for general duty and must be treated in the accounts in the same way as the permanent establishment instead of being charged to some particular work.

2. In view of the above facts, the Government of India is pleased to rule that the salaries of temporary employes who are engaged under the terms of Public Works Department Code, volume I, chapter I, para. 87, shall in future be charged in the accounts of the Public Works Department to the sub-head Establishment of a particular work or to the general service head "Establishment" according as the establishment is sanctioned for a particular work or otherwise.
