GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores, to the Superintending Engineer, V Circle, dated Madras, 31st March 1892, No. 2257 S.

With reference to G.O., No. 2860 W., dated 28th October 1890, received under your endorsement No. 3562, dated 1st November 1890, I have the honour to inform you that I have carefully gone through the stock of Public Works Stores and finding that there are several articles without any issue for a considerable time and articles that are much more than what are necessary to be kept in the reserve stock, I have prepared the accompanying list, which I consider still surplus and submit for orders.

2. In passing orders upon the list submitted I request special sanction may be accorded to reduce the value of the levelling instruments, circumferenters, and perambulators shown in the list to one-third of the book rates, as these levelling instruments are four-screwed Y's and Dumphy's of old patterns and are never likely to be issued again and the circumferenters and perambulators of which there is a large stock and are never issued.

3. These instruments are borne numerically in the books of the Public Works Stores.

4. The book rates given in the list will be altered on receipt of sanction and before printing the list for publication.

No. 173 W.

Forwarded to the Chief Engineer, Public Works Department.

2. I do not recommend the General Superintendent's proposal to reduce to one-third the prices of the instruments mentioned in para. 2, if, as was done in 1887 (see G.O., No. 631 W., dated 2nd March 1887), the instruments can be transferred to the Officer in charge, Mathematical Instrument office at Calcutta, and at a valuation to be fixed by that officer.

3. Instruments other than those mentioned in para. 2 and stores can be sold by the General Superintendent at prices reduced at his discretion by any amount not exceeding thirty per cent. of their book value under Code para. 1669, but the book rates only should be allowed to stand in the list and need not be altered as proposed by him.

(Signed) D. McN. CAMPBELL, Lieut.-Colonel, R.E.,
8th April 1892. Superintending Engineer, V Circle.

ORDER—dated 20th April 1892, No. 1253 W., Public Works.

The proposals of the Superintending Engineer, V Circle, in regard to the disposal of the surplus stores are approved.

2. The General Superintendent, Public Works Stores, will communicate with the Mathematical Instrument department, Calcutta, in regard to the instruments referred to in para. 2 of the Superintending Engineer's endorsement.
