14th March 1891, No. 747 W., Public Works.

1287/1.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following paper :—

Proceedings of the Board of Revenue (Land Revenue), dated 21st January 1891, Mis. No. 498.

Mr. W. A. Happell.

Read—the following letter from J. HANNAN, Esq., Superintending Engineer, II Circle, to the Collector of the Kistna district, dated 17th December 1890, No. 2332 K.S.

5 Estimates.
1 Specification.
1 Report.
1 Site-plan.
1 Data sheet.
1 Tracing of marble pillar.

As directed in G.O., No. 1593 W. of 9th June 1890, on G.O., No. 3269 of 28th May 1890, Revenue, I have the honor to forward, herewith, estimates, &c., as per margin, amounting to Rs. 28,400, for constructing a first-class taluk cutcherry at Guruzala in Palnád taluk, and to request that sanction of Government may be obtained in the usual course.

2. The necessity for the work is explained in the report accompanying.

3. As requested in your letter No. 6426 of 2nd September 1890, marble pillars have been allowed to the verandahs instead of teak-wood posts as provided for in the type design.

4. I have to inform you that Rs. 3,000 have been applied for this work in letter No. 332 G.L. of 19th October 1890 to the Chief Engineer, Public Works Department, for expenditure in the current official year and, as therein requested, permission may be granted to collect materials in anticipation of sanction to the estimate.

Endorsement by the Collector of the Kistna district, dated Masulipatam, 18th December 1890, No. 9387.

Forwarded to the Board of Revenue.

The estimate will require revision when the new taluk cutcherry plans are received.

Meanwhile sanction may be given to collect materials. The "marble" pillars are ordinary limestone of the country and it is to be desired that it should be made more use of for building.

The Executive Engineer, Eastern division, has recently found an easy method of cutting this marble.

Resolution—dated 21st January 1891, Mis. No. 498.

Submitted to Government with reference to G.O., dated 22nd November 1890, No. 7177, as the Collector says the estimate will have to be revised after the receipt of the revised plan for first-class taluk offices now under preparation, but sanction may meantime be accorded for the collection of materials.

2. Care should be taken in building this and all other taluk cutcherries that the front of the building faces the north. When this is not done, the afternoon sun shines straight into the Tahsildar's court and into the prisoners' cells, causing great annoyance. The morning sun is agreeable to the prisoners and causes no inconvenience to the taluk establishment as the office is not open before ten except on special occasions.

Acting Secretary.

No. 1372, Revenue.

Approved and transferred to the Public Works Department.

Fort St. George,
26th February 1891.

(Signed) C. A. GALTON,
Secretary to Government.

Order—dated 14th March 1891, No. 747 W., Public Works.

Communicated to the Superintending Engineer, II Circle, who will re-submit the estimate, with the necessary alterations, after receipt of the revised type design for taluk offices now under preparation. Meanwhile the collection of materials may be proceeded with from the grant provided for the work in the Provincial budget for 1891-92.

2. Para. 2 of the Revenue Board's Proceedings above recorded will be communicated to all Superintending Engineers with the remark that the conditions therein stated should be fulfilled if possible.

3. The Consulting Architect will expedite the submission of the revised type plan of taluk offices.

MARCH.

Taluk Cutcherry at Guruzala, Palnad Taluk, Kistna District

Passing orders on estimate submitted by the Revenue Department for the construction of a —.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

1287/3

Read the following letter from the Collector of Kistna dated 10th February 1892, no: 121.

With reference to G. O. No: 747 W Public Works, dated 14th March 1891 and G. O. No: 2104 Revenue dated 30th March 1891 sanctioning the construction of a new taluk cutcherry at Guruzala in the Palnad taluk and the Collection of materials and to the recent orders (of which the Superintending Engineer has informed me) stopping Provincial works on account of the demands for famine expenditure, I have the honour to request that Govt. will be pleased to allow the construction of the Guruzala taluk cutcherry to be commenced and pushed on without delay.

2. I beg leave to prefer this request on two grounds: the first is one which applies to other public buildings in five affected taluks of this district and will be submitted to Govt. in due course through the Board of Revenue; — namely, the provision of work to the labouring and artizan population.

3. The second reason which leads me to address this separate letter to Govt. is the pressing need for subjail accommodation in the Palnad Taluk. The accommodation for prisoners in the present condemned Taluk

cutcherry at Dachepalli consists of three enclosed sections of the verandah of the old public bungalow which forms the cutcherry. They measure 408 sq: feet in all, are very low in the roof and suffice for a maximum of 13 prisoners male and female. At the Tumercode Sub Magistrate's cutcherry there are 2 wards measuring 414 sq: feet in all and suffice for 11 prisoners male and female. There is no other subjail accommodation nearer than Vinukonda 40 miles distant across two forest passes and a jungly plateau. Frequent representations have been made to me by the Deputy Collector and the Tahsildar of the very objectionable overcrowding to which undertrial prisoners are subjected. A short time ago there were at Tumercode 42 prisoners charged with dacoity &c who had to be provided for, and as I write there are 25 prisoners under trial at Tumercode and 10 at Dachepalli and the Deputy Collector has again asked for instructions what to do. Gurzala is only [illegible] miles from Tumercode and the new sub jail of the former will be of use to both places. As the new taluk cutcherry had been sanctioned I thought no further representation to Govt. on the subject would be of use, but now that the work has been arrested I beg leave to draw the attention of Govt. prominently to it. It is I venture to think little less than a scandal upon our administration that such overcrowding of prisoners should be necessary and it would not have been allowed to continue for so many years had not the Palnad taluk been in an isolated position where ordinary public requirements could be persistently overlooked.

128/4

Order thereon, 14 April 1892, no: 1997.

The Government considers that a case has been made out by the Collector for constructing the subjail at once in advance of the main building.

2. Orders will issue in the Public Works Department for the construction of the portion marked with six blue crosses on the ground plan of the revised type design herewith forwarded consisting of Jail wards, Arms room, Police guard room and verandah. A separate estimate for this portion of the building should be submitted.
