READ—the following paper :—

Proceedings of the Board of Revenue (Separate Revenue), dated 19th December 1891, Mis. No. 4112.

C. S. CROLE, Esq., C.S.

Read—the following letter from W. O. HORNE, Esq., C.S., Acting Deputy Commissioner of Salt and Abkari Revenue, Southern Division, to the Secretary to the Commissioner of Salt, Abkari and Separate Revenue, dated 11th December 1891, No. 4360 :—

With reference to the correspondence ending with Board's Proceedings, Mis. No. 3713, dated 17th November 1891, I have the honour to forward a revised estimate, amounting to Rs. 5,450, for improvements to the salt gollah at Tellicherry received from the Superintending Engineer, IV Circle, and to request that it may be approved and transmitted to Government for sanction. The excess of Rs. 1,800 over the sum originally sanctioned, after deducting a sum of Rs. 200 realized by the sale of old materials, is reported to be mainly due to some additional works, which, at the time of execution, were found absolutely necessary. It is at the same time fully explained in the comparative statement of difference enclosed.

Resolution—dated 19th December 1891, Mis. No. 4112.

The estimate, received with the letter read above, will be submitted, for the sanction of Government, with reference to the correspondence ending with G.O., dated 5th November 1891, No. 5732, Revenue. The amount of the original estimate was Rs. 3,650, and this, together with the usual charges for establishment, tools and plant at $24\frac{1}{2}$ per cent., amounting to Rs. 894, has already been placed at the disposal of the Public Works Department. Sanction is now asked for an additional expenditure of Rs. 1,800, which has been found to be absolutely necessary on the dismantling of the roof of the gollah. Including the usual percentage, the charge comes to Rs. 2,241. It is requested that the sanction of the Government of India may be obtained as early as possible for the transfer of this sum from "5. Salt" to "45. Civil Works—Imperial." The requisite funds can be made available from savings in the salt budget for the current year.

No. 4112 Dis.

As per order of the Board.

Read the following letter from W. O. Home Esq. M. A.
Deputy Commissioner of Salt and Bhakar
Revenue, Southern Division, to the Secretary
to the Commissioner of Salt and Bhakar and
Separate Revenue, dated 11th December 1891,
No 4360:—

With reference to the correspondence

TECHNICAL NOTE. 8.1.92

Revised estimate for improving the Salt Gollah at Sellierry.
Amount of Revised estimate Rs 5450

The original estimate for the above work, amounting to Rs 3650 was sanctioned by the Super Engineer IV Circle and the present revised estimate amounts to Rs 5450, being Rs 1800 in excess or 49.31% on the original sanction.

The excess is chiefly due to additional work being found necessary on dismantling the roof of the gollah, as a large quantity of woodwork was found decayed which had to be replaced by new timbers. This was only per-
ceived

perceived after the removal of the roof and the salt stored in the Gollah also to a slight deviation in the slope of the roof by raising the front wall 6" higher, as as to give a uniform slope throughout, as it is stated that the old roof had a dip in centre of one foot; petty omissions in the original estimate are now provided for as they were found actually necessary in executing the work. The comparative statement explains the differences in detail.

The rates for the new items as far as can be checked are fair.

The estimate is counter-signed by the Asst. Secy. Board of Revenue (Salt & Alkali) and transferred by the Revenue Dept. with reference to G.O. No. 2768M dated 21st Oct 91.
