NOTES.

REFERENCE TO MADRAS P. W. D. CODE,
EDITION OF 1886.

PARAS. 25 & 26.

1. The column headed "present scale" should invariably show the *sanctioned scale for the time being* and not the strength of the actual (whether above or below sanctioned) establishment as it happens to stand at the time. The "present scale" should be verified by the examiner before the proposal is submitted to government for sanction (paras. 25 and 26).

2. In the column "average or fixed pay," financial value, not mean value, should be given.

3. The financial value should in the case of progressive appointments be calculated as follows:—

(1) If the period of rise from minimum to maximum is 5 years, the average will be the minimum *plus* two-thirds, or if the appointment is a ministerial one, *plus* three-fourths, of the difference between the minimum and maximum (C. S. E., Art. 164).

(2) If the period of growth exceeds five years (as in the case of accountants) the $\frac{1}{10}$ th fraction should be decreased by $\frac{1}{10}$ th of the difference for every year by which the period exceeds five; the fraction for periods in excess of five years will therefore be as follows:—

$$6 \text{ years} = \frac{3}{4} - \frac{1}{10} = \frac{23}{40}$$

$$7 \text{ years} = \frac{3}{4} - \frac{2}{10} = \frac{11}{20}$$

$$8 \text{ years} = \frac{3}{4} - \frac{3}{10} = \frac{1}{2}$$

and so on; so that when the period of growth is 20 years the financial value will be the exact mean.

Proposed Budget Estimates for 1892-93
Letter No. _____, dated 29th October 1901

January,

In reply to yours of 2819 Kd of Feb 2.92 asking to give explanation for the continued employment of two clerks to assist the accountant seeing that the accountant will hereafter be assisted by an assistant accountant from the Examiner's office. I have the honor to remark that it is necessary to have experienced men to carry out the duties of the two assistant clerks. The Assistant Accountant from the Examiner's office is posted to acquire a general knowledge of divisional accounts & would not be kept at one limited duty such as writing up work abstracts & work registers.

2. Moreover for same reasons given by me in my letters of 1976, $\frac{2323}{21.790}$, $\frac{10.840}{3877}$, the work of the office is more than enough for the present

Sanctioned strength. The addition of a learning accountant who will probably confine his efforts to the understanding of the system of divisional accounts will not be any appreciable increase to the strength of the office. On the other hand, if one of the present assistants were to be dispensed with on the ground that an additional accountant was posted to the divisions, the strength of the office would really be far below what it even now is.

3. The result will be a gradual falling into arrears. I would draw your attention to the strength of office establishment in the Godavery Eastern, and Western divisions in which the office transactions are probably not more considerable than this & yet there is considerably larger establishment.

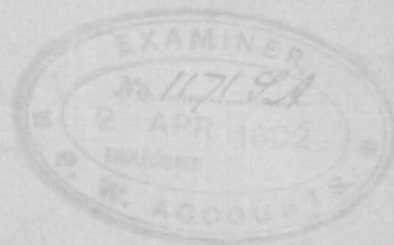

4. In these circumstances, I should feel obliged if you would strongly recommend that no reduction of the present temporary establishment be made.

To,

The Chief Engineer,

Public Works Department,
Madras.

Sir,

With reference to your memo.
N^o 862 C of the 19th ult. requesting
explanation for the continued employment
of the temporary establishment applied
for 1892-93 in the enclosed statement,
I have the honor to explain as follows:-

(a) No explanation is required for
the continued employment of the following
classes of servants included in the
statement, viz.,

Sweepers & for offices
Scavenger &
Watchers for Rest homes.

as they are very necessary for keeping
the offices clean & tidy & watching the

rest houses situated near the
Canals &c in many cases outside
the limits of villages.

2. The only items requiring explanation
are as follows:-

Guadiana Division Establishment

This is necessary as long as the
Temporary Division is in existence.

Kistna Eastern Division.

{ 1 clerk to assist accountant on hold } This
{ 1 - do - do - do - do - do - do - do - do } who 208

point has to be settled by the Examiner,
but as far as the opinion of the Executive
Engineer is concerned, these two assistants
are required in addition to the two
accountants newly posted to this Division.
Please see Copy of his letter No 6020
of the 1st instant.

1 Draftsman, 2nd class. The work in the
drawing branch of this Division is
still heavy, and I am obliged to
spare one of my own draftsmen
sometimes to assist the draftsmen in
the Division including the temporary hand
in getting through the work of the Division
without arrears. So the additional

draftsman is necessary.

The stock & Punt writers in this
and the Western Division are very
necessary for the preparation of
stock accounts & maintenance &
checking of punt books &c respectively
& should be sanctioned year after year.
Kistna Western Division. 1/26/0

1 clerk to assist the accountant
is as necessary in 1892-93 as he was
till now for reasons adduced in
Executive Engineer's letter printed
in G.O. No 29746 of the 11th November/90.

More Division.

1 Draftsman 2nd class. The work in
the drawing branch of this office
has been great owing to the Sangam
Project works having been absorbed
into it, and this is intensified now
by several estimates &c having to be
prepared for purposes of relief works
during the present famine in the District.
His services are therefore very
necessary.

Buckingham Canal Division.

Additional Lacars for Upper Subordinates

Please see para 4 of this office
letter No 360 B.C. of the 29th Oct/91
for the necessity for the continued
employment of these men.

Pedaganjam Wharf. - No explanation
is needed in this case, as the
establishment is required to collect
tolls &c at Pedaganjam - during
the closure of the Krishna Canals -
