PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Resolutions

of the Board of Revenue (R.S.L.R. & A.) of 14 April 1892 No 3625 on the following letter from the Collector of Bellary of 11 April 1892 No 1768:-

I have the honor to forward herewith for sanction of Government an Estimate for Rs 8290 together with plans, sections &c received from the Superintending Engineer Bellary for completing the Famine tank at Devagondanahalli in Hadagalli Taluk. During the last famine it is reported that a sum of Rs 24,000 was spent on it and the work was not completed. It is stated that the tank if now completed may irrigate an area of acres 296.36. It should therefore be classed as an Imperial work. An application for allotment in the prescribed form is herewith submitted. I beg to call attention to the concluding portion of the Superintending Engineer's letter. The tank can never be expected to yield more than 4 per cent. on the present estimated expenditure considering the whole of the original Rs 24,000 as simply unrecoverable Famine Outlay. Therefore it should not be taken up except to provide balance for cooling in the neighbourhood. Considered in this light the tank is situated in the midst of off-set lands and the work will be appropriate famine work.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Resolutions

of the Board of Revenue (P. S. & P. S. A.) of 14 April 1892 No 3625 Dis on the following letter from the Collector of Bellary of 1 April 1892 No 1768:-

I have the honor to forward herewith for sanction of Government an Estimate for Rs 8290 together with plans, sections &c received from the Superintending Engineer Bellary for completing the Famine tank at Devagondanahalli in Hadagalli Taluk. During the last famine it is reported that a sum of Rs 24,000 was spent on it and the work was not completed. It is stated that the tank if now completed may irrigate an area of acres 296.36. It should therefore be classed as an Imperial work. An application for allotment in the prescribed form is herewith submitted. I beg to call attention to the concluding portion of the Superintending Engineer's letter. The tank can never be expected to yield more than 4 per cent on the present estimated expenditure considering the whole of the original Rs 24,000 as simply remunerative Famine Outlay. Therefore it should not be taken up except to provide balance for coolies in the neighbourhood. Considered in this light the tank is situated in the midst of offshoots and the work will be appropriate famine work.

This

This is one of the tanks that was shown as being under the investigation of Public Works Dept. in my report under section 35 of the Famine Code. I request that the amount (Rs 20000) entered against this tank in my list of works submitted with my letter no. R.P.R. 103 dated 21 February 1892 may be corrected into 8290.

Endorsement thereon from the Chief Engineer for Irrigation d/8 April 1892 no. 177 In.

Forwarded to the Board of Revenue, Revenue Settlement Land Records & Agriculture.

2. The work is not one which can be recommended as likely to be remunerative or of a useful nature commensurate with its cost, and therefore if undertaken should be so solely as a "Famine Work".

Resolution.

Submitted for the orders of Government.

2. The Board concludes that the work of completing the Devagunda halli tank in Hadagalli taluk may be added to the list of selected Famine Relief works for that taluk printed in G.O. dated 28 March 1892 no. 299. The work is viewed likely to be very remunerative, but the cost of completing it, Rs 8290 may be expected to earn an estimated increase of revenue amounting to 4 per cent.

3. The necessary correction in the list submitted with the Collector's letter dated 21 February 1892
