The District Judge,

Godavary

Doutaishwaram 11th April 1891.

Sir,

In reply to your letter No 338, dated 25th March 1891, enclosing a letter from the District Munsif Rajahmundry with reference to certain repairs to his Court house, I have the honor to inform you that as the Executive Engineer Godavary Eastern Division reports that the most suitable site for a new District Munsif's Court is on the site of the present old Court house, I agree with the District Munsif that the execution of any extensive repairs to

to the present old District Munsif's Court house is unnecessary.

2. As however the Executive Engineer has pronounced that certain portions of the roof are dangerous, it will be necessary to carry out such repairs in order to make the roof safe, or to move into a rented building.

3. The plan and estimate for 152 feet a new District Munsif's Court the present house will shortly be submitted for sanction of Government.

I have the honor to be,
Sir,

Your most obedient servant,

To

The District Judge,
Godavary.

Dowlaisheram, 21st November 1890.

Sir,

With reference to your letter No. 1172 dated the 28th ultimo, I have the honor to inform you that the Executive Engineer Godavary Eastern Division reports that he has thoroughly examined the present District Munsif's Court at Rajahmundry, and he is of opinion that a new building is necessary, as the present building is more or less a "Kutchra" one, and would probably cost more in the long run to keep in repair than the erection of a new one. I am of opinion that it

it is necessary therefore ^{Intt Ch. 2157/92} to replace it,
 by a new building, on the standard
 design. Orders have been issued
 accordingly for an estimate for a
 new building and also for an
 estimate for such repairs as
 are urgently required to render
 the building safe for occupation
 till the new Court house is
 built.

I have the honor to be,

Sir,

Your most obedient servant,

REMARKS.

The existing Dist. Municipality Court
house at Rajahmundry is stated
to be a "kutcha" building and the
Executive Engineer after careful
inspection has pronounced the
building to be unsafe. He is also
of opinion that a new building
is necessary as certain portions
of the roof are dangerous and the
cost of repairing the same & keep-
ing the building in order is con-
sidered to be more than the con-
struction of a new building. It
is

is therefore proposed to dismantle
the existing Court-house and
erect a new building on the
site of the existing one, as per
Type design, circulated with
G.O. No. 1098 W dated 21st
April 1887, except that 8
additional windows are now provided
and the doorways altered
in order to avoid the trusses
resting immediately over
them.

The following rates are high
Schedule
Deakwood — 3-9- against 3-8-
Painting 2 coats — 4-13- — do — 3-8-
Wood rolling — 2-10- — do — 2-6-
Venetian windows
with glazed inner { 4-1- — do — 2-14-
Shutters & iron bars

* This rate is for H. or Sub. Dist.

The other rates, as far as can
be checked are fair. If sche-
dule rates are adopted the
saving will be nearly Rs. 295.

Provision is made for the
following lump sums:-

Scaffolding — B 50
Shed for materials — 60
Clearing site — 30
Demolishing old building 200
General charges 170- This
