READ—the following paper :—

From C. VINCENT, Esq., Under Secretary to the Government of India, Public Works Department (Civil Works—Miscellaneous), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 19th May 1893, No. 127 M.

It has been observed that the lists of surplus stores in the Buildings and Roads and Irrigation Branches of the Public Works Department, which are circulated annually in accordance with Government of India Public Works Department circulars Nos. XI P. W. and XII P. W., dated, respectively, 20th December 1887 and 17th August 1888, frequently include very trifling articles ranging down to four annas in value; and as such articles are not likely to be sent for from any distance by indenting officers, I am directed to request that in future all articles of small value which are really surplus and are not likely to be required for any works within the district in which they are lying, as also any unserviceable articles, may be sold by public auction and cleared off the books of the divisions to which they belong.

The lists in question should contain only articles of value which may be required outside the district and should afford full information respecting size and other details as well as the present condition of the articles, *i.e.*, whether in "good order" or "new," as the case may be, unserviceable articles being altogether excluded therefrom.

2. I am also to point out that it is very desirable that these lists should be regularly and freely exchanged between Local Governments and Administrations and also with all State and Guaranteed Railways.

ORDER—dated 10th June 1893, No. 1554 W., Public Works.

Communicated to officers of the Public Works Department for information and guidance with reference to G.O., No. 1762 W., dated 14th June 1888.
