This ground has been planted with grass and in favorable seasons has given a good return though latterly during the last two seasons the return has fallen off from want of rain. With a plentiful rainfall the grass would soon spring up again. A portion of the ground was given to the Triplicane Literary Society for a tennis Court.* But the Governmen refused it to the Triplicane Cricket Club. It wa also refused to the College of Engineering and cricket ground in the Chepauk Park given instead. If used for a cricket ground or foot-ball ground the grass could not be grown to any advantage. It is undesirable that foot ball should be played on this ground as the ball frequently frightens horses ~~whe~~ when going on the law side. It would be much better that the foot-ball playing should be removed to the Chepauk Park the distance across the Canal is not very great and would not be more out of way ~~from~~ for the Presidency College students than it is for the students of the Engineering College

ground for playing Foot ball can be got in in the Park to the north of the Presidency College stables

15 92/3

Sir,
I beg to bring the following facts to your notice on behalf of the managing Committee and request that you will be kind enough to take the necessary action.

The ground on which we are at present playing lies between the tiffin rooms and the beach and is highly inconvenient for good game for various reasons. On one side it is too narrow being broken into by the Tennis Courts and at the other there is a masonry work almost in the centre of the field, the foundation stone of the once contemplated Military Hospital. It is uneven all round and there are thorns in the greater portion of the field. Under these circumstances it is not possible to put the players in their proper places and give them regular practice. As it is essential to secure a better ground, I beg to call your attention to the ground on the southern side of the College on which the tents of the Military were pitched in their late defence of Madras. It is something like 160 x 100. yds in size and is pretty even and will form a very good practice ground in every respect. There are two or three small trees in the ground which may be removed easily. The ground belongs to the Government and I believe they will not have any objection to grant it to us. I may mention in this connection that a small patch in this ground was granted to the Triplicane Literary Society and they were utilizing it for sometime as a Tennis Court. As the College Cricket ground has been encroached upon by the extention of the building on the western side, this ground, if secured to us, may also be used as a cricket ground in future years. I therefore request that you will move the Principal to ask the Government for this ground and also for permission to fell the trees in it as early as possible as some private individuals and one or two schools intend to secure it for themselves.

In conclusion, I beg to request that permission to use the ground may be obtained as early as possible, to enable our players to have regular practice. As I learn from a letter received today that the Kumbakonam college intends to send its players for the return match about the middle of March.

I beg to remain,
sir,
Your most obedient servant,

15th Feb: 1892

M. Ramachandra Rao
Captain, Football club.

Recd: 20-5-92

For orders

For the reasons stated by Mr. Irwin submd. that this application should be refused. The D.P.I.'s attention might however be drawn to Mr. Irwin's remark that a suitable foot-ball-field can be found in the Chepauk Park.

Orders are solicited as to whether the orders on this subject should issue in P.W.D., Revenue or Edn.; no exact precedent can be found but the land in question presumably belongs to the Rev: Dept:

½
10 May. 12 May

Orders should issue in the P.W.D. which is in charge of the land, & grows grass on it.

The application should be refused. I observe that the removal of the foundation stone of the Military Hospital which is objected to in regard to the present ground between the College & the Chepauk buildings has been advised.
