SUPERINTENDING ENGINEER'S OFFICE,

V Circle, Madras,

Chennai, 21st May 1892.

No. 247 W

From

Lieut. Col. James Neil Campbell R.R.

SUPERINTENDING ENGINEER, V CIRCLE,

To

THE Chief Engineer

P. W. Department

165th W

SIR,

With reference to para 2 of G. O. No. 184 W
dated 18th January 1892. I have the honor
to report as follows:—

Enclosures.

2. In the General Superintendent's letter
No. 145 S. dated 20th April 1891 forwarded to you
with my endorsement No. 204 W dated 28th April
1891, the proposals made were.

I That seven tons of flat iron $4" \times \frac{1}{2}"$ be sold
to the Calcutta Workshops at the reduced rate
of Rs 5-8-0 per cwt., the book rate being Rs. ~
5-13-4 -

II. That as regards the other sizes required
by the Calcutta Workshops, the quantities ~
available for transfer and their book rates
were.

	Available for transfer	Book rate per cwt.
Flat iron $1\frac{1}{4}" \times \frac{1}{4}"$	cwts 4	Rs 5-4-0
$1\frac{1}{4}" \times \frac{3}{8}"$	" 10	" 5-13-4
$1\frac{1}{2}" \times \frac{1}{2}"$	" 10	" 7-0-0
Square iron		

Square iron $1\frac{1}{2}$ " - Ton 1 - Rs 7-
 $1\frac{3}{4}$ " - wts 10 - " 6-6-8.

and that these should be sold at book rates only.

3. The above proposals were approved in G.O. No. 1278 W dated 9th May 1891 and the irons as per quantities and rates shown in List A which accompanied my letter No. 3 W dated 5th January 1892 were despatched to the Calcutta Workshops. The first five items in that List amounting to 5794 lbs, are the iron mentioned in the General Superintendent's proposal II and the sixth item amounting to 15696 lbs is the iron mentioned in his proposal I shown above.

4. The General Superintendent explains that he considers that the approval given in G.O. No. 1278 W dated 9th May 1891 refers only to his proposal I, and does not extend to proposal II and that he therefore reported that the iron mentioned in his proposal II were sent in excess of the sanctioned quantity.

5. The entries in List B which accompanied my letter No. 3 W dated 5th January 1892 are the first five items amounting to 5794 lbs in List A which accompanied that letter not separate from List A as was previously shown to appear, and the freight and other incidental charges amounting to Rs 37-7-3 on account of these 5794 lbs are consequently included in the sum of Rs 138-14-360 which as recommended

in para 2 of my letter No. 3 W dated 5th January 1892, and approved in para 1 of G.O. No. 184 W dated 18th January 1892 is to be charged to the Madras P.W. Stores.

6. The total quantity of iron sent to the Calcutta Workshops is 9 Tons 11 cwt and 98 lbs or less than the quantity viz 9 Tons and 14 cwt as per General Superintendent's proposal approved in G.O. No. 1278 W of 9th May 1891. If the General Superintendent is incorrect in his opinion as stated in para 4 above, then no iron has been despatched in excess of the sanctioned quantity.

I am the honor to be
 Sir

Your most obedt. servant

J. V. Pamballu Supt. R.R.
 Superintending Engineer & Co.
