No. 688

Superintending Engineer's Office,
3RD CIRCLE,

Bellary 1st June 1892.

FROM,

J. W. Martin Esq.
SUPERINTENDING ENGINEER,
IIIRD CIRCLE.

To,

THE Chief Engineer.

In reply to G.O. dated 19th ultimo
No. 1536 W in the matter of water supply of
Bellary, I have the honor to explain that
the estimate prepared by the Sanitary Engineer
merely provides for enlarging Alipur tank,
but as already reported in my letter No. 570
dated 17th May 1892 there will be no increase
to water supply without increasing the
drainage area.

2. In these circumstances I do
not quite understand how I should place
the matter before the Military authorities
for, as matters stand at present, I cannot
promise them any improvements on the
present state of affairs. I therefore
suggest that the question of how the cost
of improving the water supply of Bellary
should be divided between Military
and

and Municipal funds should be considered
in abeyance until the estimate is prepared
for a complete project for improving the
water supply of Bellary.

I have the honor to be
Sir

Your most obedient servant

W. Martin
Supty. Engineer, Bellary.
