The S. J. W. Perryman
submits a statement
of requirements as regards
officers & subordinate staff
showing that two upper
subordinates & one
lower subordinate are
required

We suggested that
Mr. Bonnett might
do for the Perryman,
but the S. J. W. now
says that he would
like to have the
services of the best
subordinate in the
dept. This point is
submitted for order.

If Mr. Bonnett
be appointed, the
question of the best
be referred to him

has to be considered -
There are vacancies in
the 50, 100 & 50 grades.

If an upper scale
exists of the permanent
staff cannot be given
the usual app. wages
beginning to Sundrum
Pillai, who would be
likely to get
Rs 50 in time, or more.

Sundrum Pillai
Class as Sub overman
can be fixed higher
S. P. W.

A sub overman
on Rs 45 in addition
to present scale is
asked for - Sanction
of Govt. to the app.
will be required -

In order.

Sir,

ENCLOSURES.

1. With reference to your Rt. 2512 C. dated 13th May 1892, I have the honor to forward herewith a statement shewing my present subordinate establishment and that I propose for next working season from which it will be seen that I require two overseers 1st Grade and ^{one} Sub-overseer 2nd Grade in addition to the staff already available.

2. The above represents my minimum requirements; but I should much like, if possible to have the services of the best Sub-Engineer in the department for the Main Dam which is the most important work at present in progress in

in the Madras Public Works Department.
in which case I would have Supervisor
Ramanujam Pillai in charge of the
Mulla Panjam Canal, and should
require only one new power instead
of two. -

3. I beg that, whomever is sent,
the best selection possible may be
made for incompetent men are
worse than useless at the Periar. -

I have the honor to be,
Sir,
