S 298.

2 Laurence Pountney Hill.

London E.C. April 29th
1892.

To the Director general of Stores,

India Office,
Whitehall.

1782
T.

Sir,

Referring to your valued favour of 22nd January with order for Boring Tools, it is found on completing same that it would be advisable, ^{and} ~~as~~ in this your Inspector agrees, to send out an extra Coil of Wire Rope, of a stronger description than that used for working the sliding Auger, which is about $\frac{7}{32}$ " diameter. The works consider that this size is far too weak to work the heavy jumper chisel which weighs about 5cwt. 2.0. and that a stronger wire rope must be provided.

This will necessitate a new pulley and shackle for carrying above rope, and we shall be glad to know whether we are to include the above with the Machinery.

The nett cost will be for ten 50 feet lengths, steel wire rope with shackles, a 20" rope pulley with shackle and hook, packed with the other Tools £13.

We shall be obliged if you will give us instructions in regard to the foregoing, as soon as possible.

We are etc.,

(Sd.) Bolling & Lowe.

It is requested that in any further communication
on this subject the under-mentioned letter and
number may be quoted, and the reply addressed to
The Director General of Stores,
India Office,
Whitehall,
London, S.W.
S. 298.

India Office,

Whitehall, S.W.

20th May 1892.

Sir,

With reference to the indent for Parson's boring tools
received with your letter of 26th October 1891, No. 282/W.

I have the honour to enclose copy of a letter, dated
29th April 1892, from Messrs. Belling & Love, the contractors
for the supply of the tools.

The additions therein proposed have been ordered as
they will considerably increase the range of the boring
apparatus. Half inch wire rope is a requisite for dealing
with the 5cwt. jumpers and this necessitates the provision
of a pulley and shackle capable of carrying the rope. The
tee chisel will moreover enable harder rock than can be dealt
with by the jumper to be bored through.

The whole of the apparatus is now ready and will be
despatched at the earliest opportunity.

I have the honour to be, Sir,

Your obedient Servant,

J. Sturker
Director General of Stores.

The Secretary to Government,
Public Works Department,
Madras.

No. 1782 May 15 June '92

to the Supt. Engineer
V circle with reference
to S.O. 2820 of 26th
October 1891. The
arrival of the
apparatus should
be reported.

12.10.6.92.
