SPECIAL TESTIMONIAL.

By H. E. General Lord Napier of Magdala, late Commander-in Chief in India.

Mr. John Bonnett has served in the Royal Engineers for ten years, and was present in the actions of the Hindun and Budlee-ka-Serai, and also the sieges of Delhi and Lucknow, and the occupation of Allumbagh. During this period of service Mr. Bonnett obtained satisfactory testimonials from his superior officers.

Mr. Bonnett served in the Royal Engineers from 1854 to 1862, eight years, and was granted two years for volunteering for general service, thus making a total military service of ten years.

After 1862 Mr. Bonnett served in various capacities in the Indian Public Works, under officers engaged in constructing the Railways, also for a time in private building firms; thus he gained a great variety of practical knowledge and experience in construction, and was also employed as accountant and draughtsman.

He is now returning to Europe, and desires to obtain employment in the English Public Works, under the Engineer Department.

Having looked over Mr. Bonnett's testimonials, and being acquainted with the Officers who gave them, I feel confidence in recommending Mr. Bonnett for employment; as an old soldier of the Royal Engineers, who served honorably through the Mutiny, he merits consideration from officers of his Corps; and I venture to recommend him to the Inspector-General of Fortifications in case there should be any opportunity of employing him as Supervisor or Clerk of the Works under the Engineer Department.

(Sd.) NAPIER OF MAGDALA, General,
5th May, 1876. Late Commander-in-Chief in India.

TESTIMONIALS.

Gondah, Oudh, 17th July 1859.

I have known Corporal John Bonnett, of the Bengal Sappers and Miners, since the month of May 1857. From the end of that month until the end of April 1858, I was Adjutant of the Corps, and I can with pleasure bear testimony to the excellent behaviour of the above-mentioned Non-Commissioned Officer during both the trying sieges of Delhi and Lucknow.

In February 1859 Corporal Bonnett joined me at Gondah in Oudh, and was for some time my only Overseer in the construction of the new European Barracks at that station. I understand that principally for domestic reasons he is now about to quit the Army and return to England, and I shall be very happy if this short notice of his services and good conduct should hereafter be of service to him.

I might here remark that he has had sole charge of the Workshops since he has been under me at Gondah, and that both his Regimental and Departmental Defaulter sheets are *blank*.

At MR. BONNETT's request I write to state that he was a young soldier in the H. E. I. Co's. Sappers and Miners when I was a Subaltern at Chatham in 1854.

I was afterwards Adjutant of the Bengal Sappers and Miners in 1857-58, and Sergeant Bonnett served under me during the sieges of Delhi and Lucknow and elsewhere.

A few years later he was (although we were both still in the Army) employed under me in a civil capacity, building barracks, laying-out roads, making bridges, &c, at the new station of Gondah in Oudh.

I was ordered away from India to Persia in 1862, so that for more than 20 years I had merely seen MR. BONNETT once or twice.

While under me he was, I well remember, steady, intelligent, and perfectly sober, and trustworthy.

I have no special recollection of his capacity as Overseer, the rank he held at Gondah, but every Non-Commissioned Officer of Sappers had been thoroughly trained in levelling, the simpler methods of Surveying, the Keeping of books and accounts, &c.

I have no doubt MR. BONNETT had considerable experience in Road making, &c. &c., but there were two or three overseers under me, and I cannot, after so long a time has passed, write with certainly as regards details.
