No. 2171

Govt. Press, Madras

11th June 1892.

Office Note

1857

The Superintendent, Govt. Press submits that three type casting machines are expected in November next, and when they arrive there is not sufficient accommodation for them in the foundry rooms.

2. A room measuring $37\frac{1}{2}' \times 15'$ is required to be added to the north of the present Nos. 2 and 3 type casting rooms; the present north wall to the extent required should be pulled down and 4 pillars inserted to support small chimneys; the present rooms and the new room will make one large room ($37\frac{1}{2}' \times 27'$ inside measurements) in which 12 machines will be

orked.

3. As the type casting machines have been indented for to meet the increasing wants of the Press for types, it is necessary that they should be set to work as soon as received; the undersigned solicits that this work may be considered an urgent one, and orders issued for its execution as soon as possible, so that the accommodation may be ready by November next.
