In,

Enclosures.

With reference to your letter No. 200, dated the 5th March 1892 to the Assistant Engineer in charge North Sub Division, I have the honor to state that a boundary wall uniting the existing pieces 7 feet high, and 5300 feet long, constructed partly of brick in chunam & partly of brick in mud will cost about Rs 14700, the same length of walling 8 feet high will cost about 1000 Rs extra. The wall will need deep foundations in consequence of the nature of the soil, hence the high cost.

The sanction of Government is necessary for the preparation of detailed plans and estimates.

I have the honor to be

1892 forwarding the Annual Report on the
Lunatic Asylums in this Presidency, I have the
honor to forward the accompanying letters
from the Consulting Architect to Government
and the Superintendent, Lunatic Asylum

the construction of the boundary wall of the

the work has already been explained, I
would request that Government may be
