GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read— the following paper :—

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department (through the Collector of Madura), dated Trichinopoly, 5th January 1892, No. 1039 M.D.

I have the honour to submit, for the sanction of Government, a revised estimate, amounting to Rs. 4,640, for improving Sea Customs office, Kilakarai, Madura district.

2. The original estimate, amounting to Rs. 3,260, was sanctioned in G.O., No. 722 W., dated 13th March 1891. The excess over the original estimate is Rs. 1,380 or 42·26 per cent. and it is on the sub-heads noted below :—

	RS.
(1) Concrete and rubble in cement	646
(2) Do. in sand mortar	206
(3) Rubble in do.	143
(4) Cut-stone ashlar set in mortar	114
(5) Plastering two coats	4
(6) Doors	7
(7) Rough stone revetment	202
(8) Contingencies	16
(9) Petty supervision	42
Total excess ...	1,380

(1) The excess is due to the rate being increased from 50 to 96 (*vide* data attached to the Executive Engineer's report).

(2 *to* 7) Due to the increased rate, as the local rates for labour and material are very high.

(8 *to* 9) Due to the additional amount found necessary.

3. The mistake in regard to rates, at which the work could be done, is explained in the report attached to the estimate. The Sub-division officer spent over a week on the work and had the cement work done departmentally. He found it impossible to get the work done or taken on contract for less than the rates in the revised estimate.

No. 27.

Forwarded.

Madura,
9th January 1892.

(Signed) S. H. WYNNE,
Acting Collector.

Order—dated 21st January 1892, No. 205 W., Public Works.

The revised estimate, amounting to Rs. 4,640, for improvements to the Sea Customs office at Kilakarai in the Madura district, is sanctioned in supersession of the estimate of Rs. 3,260, sanctioned in G.O., No. 722, W., dated 13th March 1891.

2. This sanction has been registered as Provincial No. 105 W. of 1891-92 and classified as Civil Buildings, Original Works.

TECHNICAL NOTE.

Improvements to the Sea Cus-
-toms Office at Kilakarai,
Madura District

Amount of Revised Estimate Rs 4640

The original estimate for this
work amounted to Rs 3260 &
was sanctioned in G.O. No. 73
W dated 13th March 1891. The
revised estimate now submi
for sanction amounts to Rs 4
being Rs 1,380 or 42·33 % in
excess over the original sanc

The large excess is chie
due to insufficient rates
-vided in the original es
-ate and to the increased
paid for Portland cement
-tained from Colombo. The
-cess is on the following
heads:-

(a) Concrete & rubble in cement

There is no explanation as to why Portland cement was obtained from Colombo at Rs 16 per cask, when the price per cask if obtained from Madras should not have exceeded Rs 10 -

The rate for concrete as actually worked out is very high, but as it is reported to be nearly completed the Estimate can be sanctioned

Copy of letter from the offg. Acctt. General to the Government of Madras to the Examiner of P. W. Accounts Madras No. $\frac{\text{IaE}}{314}$ dated 14th November '91

With reference to your endorsement No. 66 P.S dated the 2nd instant on Government order No. 2634 W dated the 1st October 1891 P.W.D. I have the honour to state that my office is aware of no general orders of Govt. declaring service paid from the Irrigation Cess Fund as pensionable — men employed on the Conservancy Establt. of the Tottiyam Chinnavoikal and paid from the above fund cannot therefore count their service for pension in that Establishment and the provisions of article 860 of the C.S. Regns suggested in para 2 of your memo under reply would under the circumstances be inapplicable to them.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following paper :—

From J. W. MARTIN, Esq., Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation (through the Examiner, Public Works Accounts), dated Tuticorin, 27th August 1891, No. 820 T.C.

In G.O., No. 75 I., dated 7th February 1890 (G.O., Revenue Department, No. 45, of the 18th January 1890), the proposal of the Collector of Trichinopoly for extending the voluntary irrigation cess system to Tottiyam Chinnavoikal and some other channels having been sanctioned, I have, on the application of the Head Assistant Collector, ordered the transfer of the conservancy establishment * employed on the water regulation of the above channel (Tottiyam Chinnavoikal), but the Examiner, Public Works Accounts, states that "sanction of Government to the transfer of the establishment to the Revenue Department is necessary and should be obtained."

* One lascar at Rs. 6.
Two lascars at Rs. 5 each.

2. From the Government order quoted above, it will be seen that the water regulation of the channel and the maintenance of the korumboos have been undertaken by the Revenue Department; I do not therefore see any objection to the transfer of the establishment which was employed for the purpose. I have, however, now the honour to request that the sanction required by the Examiner may be obtained.

No. 5214.

Forwarded for disposal. Formal sanction of Government of the transfer of the establishment to the Revenue Department appears necessary.

(Signed) I. S. SHERLOCK-HUBBARD,
Offg. Examiner, Public Works Accounts.

2nd September 1891.

No. 23 E.W.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 12th November 1889, No. 789:—

W. S. Whiteside, Esq.

Read—the following letter from G. W. FAWCETT, Esq., Acting Collector of Trichinopoly, to the Secretary to the Commissioners of Land Revenue, dated Trichinopoly, 26th October 1889, No. 449-4:—

I have the honor to submit the following proposals for the extension of the voluntary irrigation cess system to the following three river channels in the Musiri taluk, viz., (1) Srinivasanallur channel, (2) Tottiyam Periyavoikkal, and (3) Tottiyam Chinnavoikkal.

2. The Srinivasanallur channel is at present managed by the ryots themselves. A proposal to commute the customary labor contributed by the ryots into a money payment was submitted to the Board in 1879, but was negatived pending the passing of an Act to legalize the collection of such a cess (Board's Proceedings, dated 16th June 1879, No. 1704). Government have, however, since authorised the extension of the system in their Order, No. 1176, dated 20th December 1887, communicated with Board's Proceedings, dated 17th February 1888, No. 145, and a similar proposal to levy an irrigation cess for the conservancy of Marudur Nattuvoikkal and other channels in Kulitalai taluk was sanctioned in G.O., No. 143, dated 4th February 1885. The ryots have again brought the proposal forward and I put it therefore before the Board again.

3. The conservancy of the Tottiyam channels was until recently managed by the Kattuputtur mittadar, who kept up the korambu with contributions received from ryots. He has lately, however, had difficulty in collecting the contributions and has given it up, and both he and the ryots now offer to pay a money cess and request that the management of the korambu be undertaken by Government.

4. The total extent of irrigation under the channels and the rates which the ryots have consented to pay are shown in the accompanying statement.

5. The rates proposed are higher than those sanctioned for the three channels in Kulitalai taluk in G.O., No. 143, dated 4th February 1885; but anything lower would not leave annual surplus sufficient to provide for the maintenance of the korambus, and the ryots have agreed to them willingly. The rates for baling have been calculated at three-fourths of those for direct flow.

6. The total amount of the cess will be Rs. 432 for Srinivasanallur channel and Rs. 2,623 for the two Tottiyam channels and the cost of the proposed establishment, Rs. 324 and 1,470, respectively, leaving balances of Rs. 108 and 1,153, respectively. The latter balance looks large; but is not so actually, for there will be a good deal to do in maintaining the korambus. If a surplus should be found accumulating hereafter the cess can be reduced. It will be easier to reduce than to raise it.

7. The heads of the two Tottiyam channels are close together and can be easily managed by a single establishment.

8. I request that the Board will be pleased to obtain the sanction of Government for these proposals and for the levy of the cess from the current fasli.

The voluntary contributions referred to, are it is thought, administered by Government and under the circumstances, it seems doubtful whether any compensation retiring allowance would be admissible on the ground that the transfer of the men to service paid from Irrigation Cess Fund has resulted n a saving of their entire pay to the
