From W. B. DEWINTON, Esq., Superintendent of Works, No. I Periyár division, to the Chief Engineer, Public Works Department, dated Periyár, 15th July 1892, No. 81 C.E.

I have the honour to report that, as stated in my telegram of 11th July, I require an additional half mile of portable railway for use on the works here and beg that you will be good enough to obtain the sanction of Government to my purchasing it from the makers (Messrs. John Fowler and Co. of Calcutta) because I require it long before it could be obtained in the ordinary course from England. Two thousand feet are needed for opening new quarries at Periyár, constructing new sidings at Periyár and a second tramway to dam and a tramway below No. 3 dam, and 600 feet for extending lines in tunnel at Thekady.

The cost will be, as far as I can ascertain from catalogues, about the same in India as if obtained from England, viz., Rs. 3,000.

Note by the Chief Engineer, Public Works Department.

The railway applied for is much needed and sanction to its local purchase is recommended.
