Proceedings of the Court of Wards.

Dated 16th June

1892

No. 2024

READ the following letter from the Managers, Lakshavaram Estate, to the Collector of Godavari, dated 29th April 1892, No. 61, and the following endorsement thereon by the Collector, dated 16th May 1892, No. 124.

With reference to the order No. 113—dated 26th April 1892, I humbly beg to state that the masonry chuce therein referred to—was, to my remembrance constructed in the year 1884 at a cost of Rs 500/- and no repairs have ever since been made. I am doing business at Vella, recently taken possession of: and the record showing the actual amount spent for it and the actual date of its construction is at Ellore; but the work being of urgent character I have not written to Ellore

for the submission of the information called for. I dare say the information I have now given is almost correct.

To save delay in the commencement of the work I have previously arranged to get the plans and estimate for the sluice which I have received today. I beg to forward them herewith.

The Supervisor who has prepared the plan and the estimate under instructions from the Tank Sub-Divisional Office proposes that the sluice should be dismantled and constructed a new and estimates the costs therefor at Rs 240.

There is no provision for the work in the Budget and the work is therefore to be sanctioned by the Court of Wards. But as the sluice is necessarily to be constructed before the rainy season sets in, I beg to submit that the funds may be placed at the disposal of the D.P.W. as early as possible in anticipation of Court's sanction and that the estimate and the plan sent express to the Superintending Engineer with the requisition to commence the work at once.
