Note on the savings effected in the Madras Provincial Establishment under all heads owing to the transfer of Military Works:-

The following statement compares the scale of Establishment as it stood on 31st March 1890 and as it stands at present, i.e. on 31st July 1891.

2141-2/3

I. Engineer Establishment

	Scale on 31st March 1890		Scale after 31st July 1891		Difference				Remarks

2. From the above it will be seen that a comparison of the scales as they stood before 31st March 1890 and as they ~~stood~~ stand at present i.e. after 31st July 1891 will not accurately show the saving that has accrued to Madras

Provincial

Provincial Establishment in consequence of the transfer of Military Works from under the control of the Madras Government to that of the Director General Military Works. The only way of arriving, approximately, at this saving is by taking the pay and allowances of Establishment actually transferred to the Military Works Branch. These may be stated as follows:—

24-4-92

Engineer Establishment — Salaries

Pay of Mr W. B. de Winton, Executive Engineer 2nd grade lent to Military Works Branch and in whose place no promotions of any kind have been made ——— Rs 800 — u — —

(vide this office No 5475 dated 10th September 1891)

Upper Subordinate Establishment

The pay of the men actually transferred amounts to Rs 1157 — 1 — 6 as shown below but as the Madras Government have given promotions under this head, so as to bring the scale based on a total strength of 179 i.e. (185-6 Upper Subordinates transfered to Military Works Branch) the actual savings must be taken at only ——— Rs 850 — u — u

(Please see this office letter No 4781 dated 17th August 1891)

Accountants Establishment

The Comparative Statement shows that there has been a saving of Rs 140-5-3 per mensem but of this

this, only 2 Accountants whose pay including Presidency Allowance and Presidency House Rent were actually transfered to Military Works Branch and their pay amounted to _____ Rs 310 ✓

3. The outlay on Military Works and repairs for the three years 1886/87 to 1888/89 as also the percentage charge made to Public Works Establishment every year is as follows:-

Heads	1886-87	1887-88	1888-89
Original Works	145707	130574	202505
Repairs ———	311795	293110	299586
Total	457502	423684	502091
Share of Establishment percentage	106754	98303	107498

Taking the average of the percentages on account of Establishment

Establishment for the three years, the average for ~~the~~ each year ($\frac{106754 + 98303 + 107498}{3}$) is Rs 104185. Deducting from the above the sum of Rs 21,000 for 1890-91 being the Establishment percentage charge on the grant for Military works and repairs which are now executed by the Madras Provincial Establishment, the loss to Madras Provincial Establishment in the percentage which it was getting on account of transfer of Military Works is Rs 83185. Deducting from this, the sum of Rs 53004 being the cost of Establishment actually transferred to the Military Works Department, the net loss to Madras Provincial Establishment owing to the transfer is (Rs 83185 minus Rs 53004 or) Rs 30181 per annum as nearly as I am able to calculate it.

FOR ORDERS.

The Examiner gives credit for a sum of Rs 800 per month on account of the salary of Mr. de Winton whose services were lent to the Military Works Branch, but this was merely a temporary arrangement, and would probably not have been consented to by the Madras Government had it been known beforehand that no promotions could be made in his place, his services have long

long ago been resumed.

2. The true loss to Provincial is therefore Rs 39,781/per annum not Rs 30,181.
