No. 3320 W. regarding temporary workshop for students of the

College of Engineering Madras.

G.O. dated 25th March 1893 R No. 61, requesting the D.P.I.

to submit plans and estimates for the proposed permanent work-

shop in connection with the College of Engineering costing Rs.

21,907.

Read also letter from the

Director of Public Instruction d/ 21st June 1893 No. 5407.

Order dated 25th July 1893, No. 557.

Upon reconsideration the Government resolves to san-

ction the construction of a workshop of a permanent character

for the College of Engineering. The cost is now estimated to

amount to Rs. 23,607 and the necessary plans and estimates

should be submitted to Government at once. The sum of Rs. 8,330

has been allotted towards the work during the current year and the collection of materials may begin immediately.

To, The Principal,

Sir, With reference to your letter N^o 111C dated the 14 April, I have the honor to state that I ascertained from Captain Ellis that the reduction of Rs 1500 was to be effected by reducing the thickness of the walls of the boiler room, and flooring with 6" lime concrete only instead of 18" concrete covered with Buddapah slabs. I do not see how it can be further reduced, nor do I see how this reduction can be carried on.

if the substantial floor referred to
in para 5 of your letter N^o 341C
dated 18 July 1890 is required.
If it were omitted, substantial
foundations for all the machines
would be necessary so that a
great portion of the saving would be
taken up. I think that Captain
Ellis' statement has been
misunderstood, and I do not see
how the idea has been arrived
that the cost could be reduced
to Rs 21,907/.

To, ^{27/5} The Director of Public Instruction

Sir, I have the honor to request
that you will be good enough to
move the Government to sanction
the following works now in abeyance
as early as practicable.

1. Permanent workshops for the College
of Engineering Estimate Rs 23,603/
2. Additional accommodation to the
School of Arts Estimate Rs 17,910/

If the former estimate is not sanctioned
soon, I may have to surrender the

grant, and great inconvenience is
experienced by the stoppage of the
latter work, in consequence of the
proposed third stone.
