Letter from the Executive Engineer Bellary
Division No 1446 dated 11th July 1892 to the
Suptg. Engineer, III Circle, Bellary.

I have the honor in continuation of
this Office No 1398 dated 6th July 1892, to explain
that two estimates were submitted, one, for
carriage $\frac{1}{2}$ of Famine Tools, for Rs 1300, which
have been and will be received from Saluz $\frac{1}{2}$
when the Famine is closed. Several tools which
were sent for Famine work to Kanakal Tank.
Deepala Nagamma Cheruvu & Nagalapur
Tank, and others are now being returned to
stores as they are not required there. Likewise
all the Tools from other works may be returned
to store shortly and so this estimate requires
sanction. There is no other estimate to which
the carriage of coming Tools can be charged.

2. Another estimate for Rs 4,212
was submitted for repairing Famine
Tools both lying in the compound of the
yard and heaped up in store. Unless these
Tools

Tools are repaired they cannot be used.
The hire for two watchmen is necessary
for watching these Tools both day and nights
until they are properly repaired and secured
in Godowns when the repairs for Godowns
are completed and so the sanction of this
estimate is necessary.

No. 1109

15-7-92

Copy forwarded to the
Chief Engineer G. W. D. for favor of
sanction.

No. 1109 Encl.

Estimate for carriage of
Fanning Tools for Rs. 1300/-

Forwarding - for
purpose of sanction -

16-11-92

21-8-92

Current No. 7325
Letter No. 1109
Dated 15th July 1892
From the Super. Eng. III Circle

TECHNICAL NOTE.

The underruniment estimate
amounting in all to Rs. 5502 for
carriage of Fanning tools to
Divisional Office does not for re-
pairing Fanning tools are sub-
mitted for sanction.

(a) Carriage of Fanning tools	Rs. 1300
(b) Repairs of — do —	4202
	<u>Rs. 5502</u>

In the E.O. letter attached to
the estimate it is stated that
the tools are being returned to
the Divisional Store from Fanning
works and as there has no
sanctioned estimate to meet
the cost of carriage & for
arranging the tools in the store
the accompanying estimate^(a) is
submitted for sanction. It
provides for an approximate
cost of Rs. 1000 for carriage
of tools by rail & a lump sum
allowance of Rs. 200 for carting &
arranging.

Min

I thank you
draft the foregoing
pl. No. 7325 the
be attended, & if
sanction only
given for the
Rs. 1300 -

The estimate
for repairs might
be over till the
general question
was settled - as

if they eventually
to L. Madras it would
be cheaper to repair
them there than at
Bellary.

over
26.7.92

The same in the stores. A second estimate amounting to Rs 4202 is submitted for repairing the Farming tools which are lying in the compound of the Government stores. This estimate provides for the employment of 2 watchmen for one year at $7\frac{1}{2}$ Rs each & for repairing 3500 pickaxes at a cost of $10\frac{1}{2}$ annas each also for painting & sharpening 6,900 articles such as jumpers, crow bars &c. at a cost of 4 annas each.

The rate of $10\frac{1}{2}$ annas to repair a pickaxe appears to be high new picks weighing 6 lbs each are available at the P. W. Stores at Rs one each.

The rates cannot fairly be checked & the estimate for the repairs of tools appears high.

delivered this telephone 2/30

Your number 1109 dated fifteenth. Farming tools not to be moved. pending further orders. They may have to go to Madras.

[Handwritten initials]

"Establishment" and not
"Tools and Plant". The
Suptg. Engr will accordingly
submit the necessary
proposition statement
for the entertainment
of the men under temporary
Establishment, explaining
at the same time the
circumstances in which
so high a pay as Rs 7½
per mensem has been
proposed for each.

4. The Suptg. Engineer
will apply for an
allotment later in the
year, there being no funds
at present at the
disposal of Govt.

5. The sanction accorded
in these Proceedings has
been registered as Pro-
vincial No 37 W of
1892-93 and classified
as Tools and Plant.
