Read—again—

Notifications in the Financial Department, No. 1680, dated the 30th June 1870, and
No. 3123, dated the 25th August 1871, prescribing rules for the grant of advances to
officers in the Civil Department who desire to build houses at places where none are
available or where house-rent is dear.

Financial Resolution No. 5206, dated the 26th August 1874, authorising Local Governments
to deal with applications for house-building advances under the rules contained in the
notifications read above.

Read—also the following correspondence :—

Letter to the Chief Commissioner of Burma, No. 2218, dated the 27th May 1892.

Letter from the Solicitor to the Government of India, No. 498, dated the 28th May 1892,
and enclosures.

Resolution.—In the letter of 29th April 1892, the Chief Commissioner of Burma
represented that the form of mortgage bond appended to the notification of 30th
June 1870 might with advantage be amended so as to convey to Government not
only the dwelling-house erected or about to be erected by the person to whom the
advance is made, but also his interest in the land upon which the house is built. He
enclosed the Government Advocate's opinion on the point with a form of mortgage
bond drawn by that officer, and recommended that the existing form of bond and rule
IV of the rules might be amended on the lines of the draft.

2. In the letter of 10th May 1892, the Chief Commissioner recommended that, in
cases in which the pay of officers receiving house-building advances is small, the
repayment of the advance should not commence until after the fourth issue of pay
from the date on which the advance is taken, and requested that he might be
empowered to authorise the issue of house-building advances by instalments in cases
where this might be considered prudent.

3. The Governor-General in Council has accepted the changes recommended in
the form of mortgage bond.

4. With regard to the proposals contained in the Chief Commissioner's second letter, it has been decided that house-building advances may be made in instalments when considered desirable, and that, when so made, repayment shall commence from the fourth issue of pay after the first instalment is paid, but that when the advance is taken in one instalment repayment shall commence with the second issue of pay, the whole advance in both cases being repaid in two years as required by rule II of the rules issued with the notification of 30th June 1870.

5. The Governor-General in Council considers it expedient to re-issue the rules on the subject of house-building advances and directs that, in supersession of all existing rules, the subjoined rules shall in future regulate the grant of house-building advances to officers in the Civil Department:—

I.—Advances may be made, under the sanction of Local Governments and Administrations, to officers who desire to build houses, for occupation by themselves, at places where no houses are available or where house-rent is exceptionally high.

II.—All such advances must be *bona fide* required for the purpose of building suitable houses for the personal residence of the officers concerned; and if more is advanced than shall be actually expended for the purpose, the surplus shall be refunded to Government.

III.—The advances may be made in instalments when considered desirable, and when so made repayment shall commence from the fourth issue of pay after the first instalment is taken; but when the advance is taken in one instalment repayment shall commence with the second issue of pay. The repayment of the whole advance shall in both cases be completed in two years.

IV.—No advance shall exceed six months' salary of the officer to whom it is made.

V.—Recovery will be made by the Treasury officer or other disbursing officer, deducting monthly instalments equal to one-twenty-fourth part of the advance from the salary bills of the officer concerned.

VI.—In order to secure Government from loss consequent on an officer dying or quitting the service before complete repayment of the advance, the house so built, together with the land it stands upon, must be mortgaged to Government by whom the mortgage will be released on liquidation of the full amount of the advance.

VII.—The officer must satisfy Government regarding his title to the land upon which the house is or is proposed to be built.

VIII.—An officer quitting or removed from the station where he has built a house, before the whole amount of the advance has been liquidated, will continue liable to the deduction of his monthly instalment until the advance has been repaid; but, with the special sanction of the Local Government, he may be allowed to dispose of the house, provided he is thereby enabled to clear off at once the whole amount due, or to transfer it to any officer of his own or higher rank, the future deductions being made from the salary of such officer.

IX.—An officer will not, under any circumstances, be allowed a second advance whilst any amount remains due on a previous advance.

X.—Applications for advances must be made through the applicant's departmental superior, who will record his opinion as to the necessity for the assistance solicited. The applicant must certify that the sum is to be expended in building only and pledge himself that should there be any surplus funds after the house is completed, they will be at once refunded to Government.

XI.—The last pay certificate granted to officers under advances must specify the original amount of such advance, the amount repaid, and the balance remaining due.

A form of mortgage bond * will be issued to officers who may wish to avail themselves of the advance.

is unjustified. The assumption
that the pressure of the

and has resulted in the
strength of the trusses
being over estimated.

The pressure a cyclone

with reference to this
pressure and not to a
pressure of 60 lbs per square

2. The above allotments include provision for any expenditure that may be incurred in England on stores for works classified as military.

3. The distribution of the grants for Ordnance and Marine works will be made by the Director-General of Ordnance and the Director of the Indian Marine, respectively. These officers will communicate to the Local Governments and Administrations concerned the works which they desire to have undertaken during 1892-93 and the amounts available for each work, which amounts will then be included by the Local Governments and Administrations concerned in their budget estimates for Military works.

4. The preliminary budget estimates should be prepared for the amounts now provisionally sanctioned, together with the allotments, if any, made by the Director-General of Ordnance and the Director of the Indian Marine, and should be submitted so as to reach the Government of India punctually by the 15th January 1892.

5. Orders regarding the grant for Military works in Upper Burma will issue hereafter.

Order.—Ordered that a copy of the foregoing Resolution be forwarded to the Local Governments and Administrations noted in the margin for information and guidance.

14th November 1891.

(Signed) H. R. HOPE, Brigdr.-Genl.,
Secretary to Government.

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Chief Engineer, Public Works Department, dated Ootacamund, 23rd November 1891, No. 2566 M.W.

With reference to your letter No. 5125 C. of the 18th instant, I am desired, in reply, to say that the Commander-in-Chief would propose that the sum of Rs. 27,200, available for the execution of original major works at Public Works stations in this Presidency during the ensuing financial year, be distributed in the following manner :—

	RS.
Completion of new barrack, with subsidiary buildings at Calicut ...	3,400
Sheds for transport animals at Calicut (sup. estimate) ...	2,500
Reconstructing quarters for the Sergeant Instructor of the Wynaad Company Malabar Volunteer Rifles at Vayitri ...	3,990
Constructing an officers' mess with out-houses at Malaparam ...	8,000
Constructing quarters for an apothecary at West Hill, Calicut ...	7,000
Total ...	24,890

2. This leaves a balance of Rs. 2,310, which sum His Excellency suggests should be devoted towards a commencement being made in the year 1892-93 on the swimming bath for the British Infantry detachment at Calicut.

ORDER—dated 1st December 1891, No. 3216 W., Public Works.

In the Resolution above recorded, the Government of India assigned a provisional grant of Rs. 90,000 for expenditure on Military works at stations in charge of the Public Works Department during the year 1892-93. The amount distributed under departmental heads will be as shown below :—

	RS.
Works ...	72,200
Establishment ...	16,700
Tools and plant ...	1,100
Total ...	90,000

2. Of the sum of Rs. 72,200 available for works, Rs. 45,000 have been set apart for repairs and the balance (Rs. 27,200) has been distributed among major original works as proposed by His Excellency the Commander-in-Chief.

3. As there will probably be no incomplete major works requiring provision of funds during 1892-93, no reserve has been maintained with the Government.

4. The amount set apart for repairs has been distributed among the several divisions in part II of the budget.

5. The difference between the budget and the revised estimates of charges for 1891-92 is due to an additional grant of Rs. 3,092 having been sanctioned by the Government of India for the reconstruction of the roof of hospital wards, Nos. 12 and 13, of the 1st Pioneer lines at Trichinopoly.

6. With these remarks the preliminary issue of the Military works budget for 1892-93 will be printed and circulated to the officers concerned for information and guidance and four copies will be forwarded to the Government of India, Military Department.
