Sir,

In reply to your favor of 7th instant S.3,356 and D.O. 5,956 with reference to Stained glass windows at the Government House at Ootacamund, we inclose a design which we should recommend.

Our estimate for the 6 stained glass windows with different foliage patterns and circles with views or heads will be nine pounds (£9. 0. 0) each.

The four ventilators to swing inwards, ~~over~~ the area about ¼ of the whole, with brass spring pulley catches and and gun metal folding side guides will be One pound (£1. 0. 0.) each.

Awaiting the favour of your reply.

Sir,

reference number S.3336 & D.O.5956.

In further reply to your favor of the 7th instant I have the honour to send you herewith two designs for windows either of which I will be glad to supply on the terms mentioned in your letter. Design "A" has been specially prepared for your enquiry and the semi-circular pattern at the top would be arranged to fall inwards so as to form a ventilator. This does not quite represent the full area of ventilator stipulated by you but it would be difficult to give that without encroaching on the lower portion of the window which would materially interfere with the appearance of the window. The small centre piece would of course vary in each of the windows so that the same picture would not be repeated.

Design "B" was prepared for some windows recently supplied and as it represents a different class of work I thought it would be well to send it to you in case it might be preferred as the setting out of the work could be easily altered so as to suit the dimensions of your windows.

Trusting that I may be favoured with your esteemed order

I am, etc.,

Dear Sir,

Herewith we beg to hand you special colored designs Nos 3019 & 3020 for windows of Government House Ootacamund.

4. Windows with swing ventilator in each @ £10. 0. 0 each
2. " without " " @ £9. 0. 0 "

all in Muffled Glass glazed in extra strong ½ round lead well cemented both sides, and of the best possible workmanship all glass being richly painted and colors burnt in; packed for shipment to India and delivered into stores depot London, Cases free. We send samples of light tints of muffled glass for selection, we also send rough sketch of ventilator this latter being a suggestion only, it could be made the entire width of window if desired.

Design No. 3019 shews two styles of border one marked x either of these could be used with centre shewing or could be used with centre of 3020, or border of 3020 could be used with centre of 3019 without extra charge.

Either of the undermentioned 6 subjects can be represented in Centres.

Sir,

In your indent No. 20 dated 22nd February 1892, a demand occurs for the following required for Government House at Ootacamund, Coimbatore Division, viz:—

Lead sashes fitted with stained glass for windows,
Four with a ventilator each - Estimated cost £40.
Two without ventilator " " £18.

In the report forwarded with the indent it is stated that the 6 windows are to be fitted with stained glass of any suitable design, "in the form of a picture," to obstruct light as little as possible, but I have the honour to observe that the style of decoration of the hall is not known here so that it is not possible to say what subjects are suitable for the glass.

I have therefore obtained some designs, three of which have been sent to your address by Parcel Post on the 26th April 1892. One design, and copies of the letters received from the four firms are enclosed herewith, and I shall be glad to be apprised of the decision which may be arrived at on them.

The designs might, it is thought, be returned with your reply, to be sent back to the unsuccessful tenderers.

I have the honour to be, Sir,
Your obedient Servant,

From the S.E. IV Circle No. 309 Ex. d/ July 7. 1892.

2228/~~18~~ 12

It is understood from a letter written by the Executive Engineer Cornerstone Division that two designs for windows, No. 5206 C and 1513, drawn up by private firms in England, and sent to this country by the Director General of Stores for approval, have been forwarded to the Consulting Architect for adoption. The Chief Engineer considers the procedure to be most improper, and that no firm would send out designs on approval if they are liable to be then appropriated.

They should ~~this~~ on no account be copied, but should be returned to this office for retransmission to the Director Genl of Stores.
